COMMITTEE HOLDS A STORMY SESSION

Discussion of Attack from Armored Train Precipitates Clash

FIST FIGHT NARROWLY AVERTED

Investigation Causes Near-Fist Fight Between Senator and Manager of Operators—Crew of Armor-train Offer Testimony.

Charleston, W. Va., June 17.—A stormy session of the Senate Mine Strike committee at which a near-fist fight betwen Senator Martine, of New Jersey, and Quinn Morton, manager of the Paint Creek operators' association, was narrowly averted, the coal operators of Paint and Cabin Creeks today presented their side of the controversy.

Mr. Morton was the principal witness for the operators. His discussion of the attack on the strikers' camp at Holly Grove from an armored train, precipitated the clash with Senator Martine at the close of the morning session.

This afternoon, following an earnest conference between Senators Swanson, Kenyon and Martine, Senator Kenyon took charge of the hearing and Senator Martine did not ask a single question, although he had been a persistent examiner during the morning. All through the morning session feeling ran high, counsel for the operators three times protesting against the methods of examination employed by Senator Martine. The afternoon session went off quietly.

The committee made plans tonight to conclude the examination of witnesses tomorrow afternoon, and to start for Washington that evening. Many witnesses will be left to be examined in Washington when hearings are re-opened there, and the committee may determine to return to Charleston later.

The Miners Quiet.

Conditions were quiet among the miners on Paint and Cabin Creeks today, according to the advices from the hills, although officials of the United Mine Workers declared they expected further trouble soon. The union board for the New River field district will meet tomorrow to consider a strike, which, if declared, it is said, will involve nearly 15,000 men. Quinn Morton defended the position taken by the employers, declaring they were utterly unable to accede to the terms offered by the miners, although the latter were narrowed down to recognition of the union. He went into details as to the negotiations which preceded the strike in April, 1912.

The Holly Grove Fight.

Mr. Morton and others discussed at length the fight at the miners' camp at Holly Grove on the night of February 7th, when, witnesses for the miners testified, a machine gun raked the town from an armored train. Mr. Morton flatly denied the statement of Calvin, an ex-mine guard, called by the miners, that he had urged that the train be backed up and that the men on board "give them another round". This statement and Calvin's declaration that Morton had remarked "didn't we give them hell," after the train passed the town, were disputed points which Mr. Morton vigorously denied, and precipitated the clash between the witness and Senator Martine.

When Chairman Swanson announced the noon adjournment Mr. Morton remarked, "We'll all go down and take a few drinks and then we'll feel better." Senator Martine boiled over and Sergeant-at-Arms Higgin, Senators Kenyon and Swanson had difficulty in quieting things.

This afternoon K. S. Leitch, engineer, and William Lardy, fireman, of the armored train the night of the Holly Grove fight, both testified that the first shots were fired from the hills along the tracks, at Holly Grove.

"The train was moving along about 15 or 18 miles an hour," said Mr. Leitch. "The first shots were fired at the lower end of the town of Holly Grove. There were four shots that seemed to come from the hills, and then the general fusillade began with shooting from the train and from the hills."

The engineer said he dropped to his knees beside the boiler of his engine and rode there until the firing ceased. He received a flesh wound on his hand from a bullet. When the train reached Mucklow, he said, he found on the engine's tender marks of seven bullets and a load of buckshot. All his testimony was corroborated by his fireman who said he took refuge in the coal on the tender when the bullets began to fly. The operators called a number of men working in the mines, all of whom declared that the work in the mines was well paid. Several of the witnesses had been brought into the field during the strike to take the places of strikers and they declared that they had not been brought in locked cars. Charles Larnay said that of 42 men who left New York in a car with him only 34 reached Cabin Creek and he is the only one of the 34 still at work. The others had left.

Many of the witnesses declared that the principal trouble on the creeks was caused by the activity of the mine guards.

HOUSE DEMOCRATS TO MEET.

Will Consider Report from the Caucus Budget Committee.

Washington, June 17.—Representative Palmer, of Pennsylvania, chairman of the Democratic caucus of the House today issued a call for a meeting of the House Democrats on June 25 to consider a report from the caucus budget committee. The plan which is expected to be submitted contemplates the appointment of a budget committee to supervise and regulate appropriations in the House with a special view to fixing a maximum of appropriations to be made during each session.

MEDICAL SOCIETY MEETS

North Carolina Physicians in Sixteenth Annual Session at Morehead City—President Munroe's Annual Address

(Special Star Telegram.)

Atlantic Hotel, Morehead City, N. C., June 17.—The Medical Society of the State of North Carolina opened its 16th annual session here today with prayer by Rev. Euclid McWorther and addresses of welcome by Mayor W. M. Webb and Dr. David S. George, responded to by Dr. Albert Anderson, superintendent of the State Hospital for the Insane, at Raleigh.

The president's address was delivered by Dr. J. P. Munroe, of Charlotte. Dr. Munroe dwelt largely on health matters and took occasion to make favorable mention of the splendid work of Asheville's health department and the energetic and efficient health officer, Dr. L. B. McBrayer, and recommended that other cities of the State follow the splendid methods in use in Asheville.

He also spoke of State institutions and said he desired to emphasize the remarks of his predecessor in Dr. A. A. Kent, in regard thereto.

This was that at these institutions there should be conducted research work or else a special commission should be appointed to conduct research work in connection with all the State institutions, or else the Board of Health should do it.

His reports stated that through the efficient efforts of the secretary, Dr. John A. Ferrell, the membership of the society was the largest in its history—1,100.

It was considered a very able address and ranks with the best made in the past by Dr. Munroe's predecessor.

The House of Delegates met at 2 P. M. with 72 counties represented, and organized and appointed its committees. The House of Delegates is the legislative body of the society.

The afternoon session was given over to papers on physiology and chemistry. Dr. I. H. Manning, of Chapel Hill, was chairman of the section on these two subjects, while on ear, nose and throat, Dr. J. G. Murphy, of Wilmington, was chairman.

At the night session important addresses were given by Dr. Stuart McGuire, of Richmond, Va., on "Hypothyroidism;" Dr. J. Allison Hodges, of Richmond, on "Mental Health;" Dr. W. O. Witherbee, of Charlotte, on the "X-Ray in Diagnosis of Tuberculosis," and by Mr. Jno. E. Ray, superintendent of the State School for the Blind, at Raleigh, on "Opthalmia Monotorum." There are about 350 physicians in attendance.

POLAR EXPEDITION

Canadian Party Leaves Victoria for the Frozen North

Victoria, B. C., June 17.—The Canadian Polar exploration expedition, which will spend three years in the Arctic under the direction of Vilhjalmar Stefansson, discoverer of the blonde Esquimaux, set out today when the old whaler Karluk, Captain Robert Bartlett, with ten scientists and a crew of 15 men, steamed from Victoria for the far north.

Dr. Stefansson did not sail on the Karluk, remaining behind to complete a book he is writing. He will join the vessel at Nome, Alaska, about July 20th.

Dr. R. M. Anderson, who will have charge of the Southern party, which will use the auxiliary gasoline schooner Alaska, now awaiting the arrival of the party at Nome, also remained behind.

The scientific work of the expedition began with the sailing of the Karluk, James Murray, Oceangrapher, beginning his investigation of currents, while Fritz Johansen, United States government biologist, began investigating the sea life in the water through which the Karluk passed. Murray and Johansen will conduct constant research into ocean animals, the chemistry of the sea, temperature of the water and direction of currents in a laboratory constructed especially for them on the deck of the old whaler.

THE "LOBBY" TRAIL LONG AND WINDING

Committee Examines Private Files of Sugar Industry Agents

LETTERS AND TELEGRAMS READ

Publicity Methods of Sugar Representatives investigated—Only Small Part of Correspondence Read Into Record.

Washington, June 17.—The trail of the "lobby", the Senate has been following more than two weeks, led today into the private files of the men in charge of the Washington offices of the United States Beet Sugar industry, the leading instrument of the campaign against free sugar, and by originals of letters and telegrams, and what appeared to be an attempt at a far-reaching campaign to create public sentiment against free sugar through the columns of individual newspapers, and the facilities of press associations.

It was a trail so long, so complicated and so winding, that after more than two hours of patient effort, the committee had succeeded in reading into its record only a small part of the mass of correspondence, which Senators believed had produced the most sensational evidence yet developed.

More than 70 had been read when adjournment was taken tonight. Those read into the record were directed to managers of beet sugar companies, officers of the American Beet Sugar Association, and friends of Hamlin, indicating that Hamlin at the time of their writing was an active figure in a campagn to organize support for the protection of the beet sugar industry, and secure publicity against tariff reductions.

Some told of Hamlin traveling to large cities, giving out interviews; others, written in Washington, indicated that he was trying to circulate matter in defense of a sugar duty through newspapers, the Associated Press and other channels, to offset what he thought misleading statements put out by sugar refiners. The text indicated that his attempts at publicity had not always been as successful as he had hoped. Other letters referred to a plan launched by Hamlin to have the large beet sugar companies take over $35,000 in bonds of Chicago Inter-Ocean. Other letters disclosed attempts to interest big railroad systems in the anti-free sugar campaign, and to have professors of agricultural colleges appear before committees of Congress with arguments favorable to the beet sugar men.

None of the letters disclosed that the railroads had been interested, or that the great news agencies had been extensively used, or that the Inter-Ocean bonds had been bought. Letters introduced did show that the sugar men had been dissatisfied with their efforts to get "interviews" carried by the Associated Press.

Austin, and a sergeant-at-arms of the Senate, brought a big box of the telegrams and letters to the committee room this afternoon. The committee suspended the examination of witnesses and Chairman Overman, Senators Reed and Walsh began reading them into the record.

Two telegrams were exchanged between Hamlin, Senator Clark and Truman G. Palmer. The first of these, given out by Palmer after the committee adjourned tonight, read:

"Senate sergeant-at-arms has required Austin to produce box said to contain your private and business papers. Have talked with your uncle and we suggest you should wire retaining attorney to protect your rights under fourth amendment to the constitution until you arrive."

Hamlin's telegram in reply, sent to his uncle, Senator Clark, was given to the committee. It said:

"Have wire from Palmer suggesting retain attorney to prevent delivery of my papers to committee. Austin, on whom service is made, may have some of my private correspondence or papers, but so far as I remember there is nothing among them which I would object to being made public."

Hamlin added that he would employ Washington attorneys if Senator Clark thought it advisable.

ORDINANCE INVALID.

Carriers Will No Longer Furnish Lists of Liquor Shipments.

Atlanta, Ga., June 17.—The State Supreme Court today held invalid Atlanta's city ordinance, known as the McClelland ordinance, which required railroads, express companies and other common carriers to furnish the police with lists of liquor shipments delivered by the carriers.

The court held the ordinance void, on the ground that it was in contravention of the section of the interState commerce act, which makes it unlawful for the agent of any common carrier knowingly to disclose the contents of any shipments. The court in its decision intimated the ordinance might be valid with respect to intraState shipments.

The ordinance was designed by the city council to aid the police in the prosecution of "blind tigers."

Jacksonville, Fla., July 17.—The Southeastern district convention of the Fraternal Order of Eagles opened here this morning for a three days' session. More than 3,000 delegates and visitors are present. The Eagles were welcomed to the city by Mayor Jordan and at once got down to business. A trip through the orange groves along the St. Johns river will be taken tomorrow.

SIX SUFFRAGETTES ARE FOUND GUILTY

Formed Conspiracy to Commit Malicious Damage to Property

ONE MAN AMONG MILITANTS

Prisoners Disdainfully Resent Sentences Passed by Judge—Sensational Scenes Are Enacted in Court Room

London, June 17.—Six of the most prominent leaders of the militant suffragettes' organization, and one of their male supporters, were today found guilty of conspiracy to commit malicious damage to property.

The women, officials of the Women's Social and Political Union, are Miss Harriet Kerr, Miss Agnes Lake, Miss Rachel Barrett, Mrs. Beatrice Saunders, Miss Annie Kenney and Miss Laura Lennox. The man is Edward Y. Clayton, an analytical chemist. Sentence was passed on the suffragettes, as follows:

Miss Kenney, 18 months; Mrs. Saunders, 15 months; Miss Kerr, 12 months; Miss Barrett, 9 months; Miss Lake and Miss Lennox, 6 months each; Mr. Clayton, 21 months.

The prisoners were committed to the Third Division which entails hard labor. Each defendant was bound over to keep the peace for a year after the period of imprisonment.

With the exception of Mrs. Saunders, all the women loudly proclaimed their intention of going on a "hunger strike."

Prior to passing sentence, the judge said that doubtless the prisoners sincerely believed that by their lawless conduct they were forwarding a good cause.

"Some of you must be religious," he continued, "if you are not, at the least you must believe in a moral governor of the universe. I commend to you the statement of a modern writer—a woman I believe—who characterized the belief that the end justifies the means as 'treason against the Almighty.'"

Whatever the motives of the prisoners, Judge Phillimore said, he must treat them as persons who had done a very serious injury to public peace, and must restrain them from further mischief.

After passing sentence he said:

"One of counsel has suggested that the time for leniency has passed and I do not think you will meet with quite the same treatment as have the others. I am bound to add that if the home secretary consults me, as he often consults a judge, I shall take upon myself the responsibility of saying to him that the ringleaders among you, at any rate, should not be let out of prison under any circumstances."

"Then we shall die together," exclaimed Miss Kenney.

The judge: "If you, in the words of our great poet, violate the great canon the everlasting has fixed against self-slaughter, you will have to reconcile such action with your conscience."

Miss Kenney: "I am quite prepared to do that."

Miss Barrett, excitedly: "We shall all 'hunger strike.'"

Mrs. Saunders: "Miss Kenney will not keep me in prison against my will."

Miss Kenney: "They have got to let me out or kill me. I think your summing was most biased and unfair. You ought to be ashamed of yourself to receive six thousand pounds a year for hounding women."

Greater interest was taken in today's proceedings than in any previous stage of the trial. The court room was crowded. Women formed the majority of the audience, among them being Mrs. Winston Churchill, wife of the First Lord of the Admiralty, and Miss Violet Asquith, daughter of the Premier.

Miss Kenney asserted that the action of the Ulster Unionists and the speeches of cabinet ministers, who, she said, had asserted that the unenfranchised were justified in rebelling to get their grievances remedied, furnished ample warrant for militancy. "I am a rebel," she said, "and a rebel I shall remain until women receive the vote. If, like Miss Davison, it should be necessary for me to sacrifice my life, then I shall gladly die."

JAMES TAKES VIGOROUS STAND

Kentucky Senator Opposes Countervailing Duty on Meat and Cattle, Declaring Articles Should be Unrestricted

Washington, June 17.—Senator Ollie James, of Kentucky, who made the sugar tariff speech in the Senate defending the stand of President Wilson, has taken a vigorous position in the Finance committee against the imposition of a countervailing duty on meat and cattle, and today announced that he will carry the fight to the Democratic Senatorial caucus if he failed to swing the committee into line.

When the majority members of the Finance committee resumed consideration of the proposed countervailing duties on agricultural products, Senator James emphatically declared that the public was entitled to unrestricted free cattle and meat. He did not oppose the action of the Democrats in free-listing wheat and flour with the countervailing duty added, but he opposed such a duty on cattle and meat so strenuously that final action on the matter was deferred. Senator Simmons announced that the matter was settled for presentation to the caucus insofar as wheat and flour were concerned.

"I am for free cattle and meat and shall go to the limit to get it," said Senator James, when his attitude before the committee became known, "Because some countries levy a tax on the imports of the American beef trust, why should we, in retaliation, starve the people of the United States. I favored free meat and free cattle in the campaign last Fall and intend to do all I can to put them in the tariff law."

The majority of the committee were in session until late tonight to hasten work on the tariff bill, and practically completed the sundries schedule. Remaining for consideration are the income tax and administrative features of the bill, which the committee will try to conclude by Thursday night. It is probable that the caucus will be called to meet Friday, but problems in the administrative section of the bill may delay the caucus until Monday. Chairman Simmons is planning to get the bill into the Senate by a week from Monday, if possible.

Senator Hitchcock, of Nebraska, whose amendment to the tariff bill levying a graduated tax on tobacco output, was rejected by his colleagues on the Finance committee, gave notice in the Senate that he would carry that amendment to the caucus and make a determined fight for its incorporation in the bill. He also introduced an amendment providing for a graduated income tax on all corporations having a capital stock of more than $100,000,000, and controlling more than one-fourth of the production of any commodity. This, he said, he also would urge in the caucus.

The action of the Finance majority in putting a tax on bananas yesterday was explained by Chairman Simmons today as a revenue proposition.

"We have placed a tariff of 5 cents a bunch on bananas," said the Senator, "for the purpose of raising revenue, and also for the reason that the banana trade is absolutely controlled by a trust.

"We estimate that the annual revenue to be derived from bananas at 5 cents a bunch cannot very well be shifted to the consumer."

MONEY FOR CUSTOM HOUSE

Estimates Filed Show $532,250 Will be Available for Local Building When President Signs Sundry Civil Bill.

(Special Star Telegram.)

Washington, D. C., June 17.—Estimates filed by the Secretary of the Treasury show the following amounts will be available when the Sundry Civil bill now in the hands of the President, is signed: Lumberton $5,000 additional for land; Wilson $50,000 for building; Kinston $69,981; Wilmington custom house and court house $532,250; Charlotte postoffice and court house $250,000.

Congressman Gudger was told by the supervising architect today that the government will advertise for bids for the construction of the Federal building at Henderson about September 15th.

In regard to the government paying for the maintenance of lights around the Federal building at Asheville, the 10th District Congressman was told that it could not be done. The city of Asheville, however, may have the extra lights if they decide to pay for them.

Another blow was dealt the railroads today when the Inter-State Commerce Commission issued an order reducing the rates on fertilizer from Wadesboro to points in South Carolina to the rate in force prior to February 26th, 1912. The railroads are instructed to restore the old rates not later than August 15th, and to keep them in effect for a period of not less than two years from that date.

After a conference today between George S. Norfleet and Benjamin Huntley, representing the citizens of Winston-Salem, and the supervising architect of the Treasury Department, it was announced that the government would agree to allow an entrance to the postoffice building on Trade street.

Messrs. Norfleet and Huntley do not believe the collectorship for the Western district of North Carolina is as yet a closed incident and they expressed the hope that Col. Garland E. Webb would yet land the job and that the office of collector would be moved to Winston-Salem.

Osborn and Moonshiners.

Representative Page, who generally thinks well before he speaks, said that he was heartily in favor of the plan proposed by Commissioner Osborn to get the co-operation of the sheriffs of the 100 counties in North Carolina in his move to rid the State of moonshiners.

"Col. Osborn has the right idea," said Mr. Page, "if he can get the sheriffs to help in this good work, and if public opinion is with the commissioner, and I believe is, the commissioner will do more to destroy illicit whiskey making in North Carolina than any one before him. In Montgomery county, Sheriff J. H. McKenzie in the past 10 years has destroyed more illicit distilleries than all the revenue agents put together. What has been accomplished in Montgomery can, I think, be done in many other counties.

"In his effort to drive the moonshiner from the State Col. Osborn has shown the same good judgment he usually does," said Major Stedman. "The co-operation of the sheriffs will be a powerful adjunct in breaking up stills. If it can be done by any one Commissioner Osborn will accomplish the result." P. R. A.

STATE MERCHANTS AT WRIGHTSVILLE

Eleventh Annual Meeting of North Carolina Association at Beach

THE WELCOME ADDRESSES

Responses Were Cordial and Expressive of Pleasure at Being Present—Today's Programme is Announced.

Welcomed with pleasing and eloquent addresses and most cordially greeted by members of the Wilmington association, the 11th annual convention of the Merchants' Association of North Carolina began in the assembly hall of the Oceanic Hotel, Wrightsville Beach, last night, and will continue in session through Thursday evening. There were less than 100 merchants in attendance, but a great many others were expected to arrive on the late trains last night and the early trains today.

Practically no business was transacted last night, the meeting being taken up altogether with the addresses of welcome, of which there were four, and the response. This morning the first business session will be held and from then until the closing session Thursday night the merchants will have a plenty to keep them busy as there are a number of matters of vital importance to be considered at this meeting.

The convention was called to order last night at 8:30 o'clock by Mr. Joe Garibaldi, of Charlotte, president of the association. Mr. E. H. Munson, of Wilmington, vice president of the State association and president of the Wilmington association, stated that Joseph W. Little, Esq., of the local bar, had been selected as master of ceremonies to introduce the different speakers. Mr. Little then took charge of the meeting and asked Rev. H. W. Koelling, of this city, assistant pastor of St. Andrew's Presbyterian church, to speak the invocation.

Mr. Little made a few introductory remarks and then prosented Councilman Chas. C. Loughlin, Mayor Pro Tem. of the city of Wilmington, who made the address of welcome in behalf of the city in the absence of Mayor Parker Quince Moore, who was prevented from being present on account of illness in his family. Councilman Loughlin made his usual pleasing address and gave to the visitors a most cordial welcome to Wilmington and Wrightsville Beach. He invited the visitors to consider what Wilmington has to offer. Wilmington, he said, is the gateway of North Carolina, located on the only river that empties directly into the ocean, thus giving an outlet that is highly advantageous in the matter of freight rates. The speaker said that it gave him pleasure to welcome the visitors to the city that is known far and wide for its genuine hospitality. "We are an old town and look in the past," he said, "but we also look into the future. We know that North Carolina in a way is undeveloped, we know that the same is true of Wilmington, but we also know that North Carolina and Wilmington have a great future." In conclusion he said that as a representative of the mayor of the city it gave him peculiar pleasure to welcome the visitors.

Mr. Little said, in introducing the next speaker, that it had long been said our neighboring city of Charleston that in order to become a citizen of that place residence for 99 years is required. Wilmington may have been in this class at one time, but it has made some progress and now it only requires a residence of 59 years to become a citizen of this city. "It is my pleasure," he said, "to introduce to you one that has not yet qualified as a citizen as regards the length of time he has resided here, but because of his superior ability and talents he has shown since coming here we feel a little closer to him than to an ordinary citizen. Ladies and gentlemen, I take pleasure in presenting to you W. P. Stacy, Esq., who will extend to you a welcome in behalf of the Wilmington bar," said Mr. Little.

Mr. Stacy made one of his usual fine addresses and was heard with the deepest interest by all. He said that he had an ideal for the organization, had an ideal for all commercial and industrial organizations in the State, and urged that the time is at hand for constructive building. He spoke along this line briefly and was given careful attention and in conclusion he said, "You are as welcome as the waves that blow across the ocean; as welcome as the breezes, yea, as welcome as the flowers in May."

Col. John VanB. Metts, extended the welcome in behalf of the Wilmington Chamber of Commerce. He declared that he was placed at a disadvantage on the programme as he was placed against three lawyers. He said that he came to the meeting, not to make an address because speech-making was out of his line, but as a representative of the Chamber of Commerce, which has and is doing much, he said, for the upbuilding of the city. All of you, he said, who have commercial organizations, know their value to your town. Col. Metts expressed the hope that the visitors would enjoy the pleasures of the beach to the fullest extent and that their stay would be long.

Vice President E. H. Munson, who delivered the address of welcome in behalf of the Wilmington association, had his auditors guessing, when, after he was introduced by Mr. Little, stepped across the platform and picked up a suspicious looking grip. Little by little he revealed his purpose and also the contents of the grip. Some time ago, he said, the local association adopted a resolution that the next president of the association, to be elected later, would have to make the address of welcome to the

Mackmen Annexed Another Victory as Opener With Chicago—Red Sox Split Double—Senators and St. Louis Won

The Athletics opened hostilities with the Chicago White Sox yesterday afternoon, the usual standing story being the result of the matinee, the Quakers winning by a score of seven to one, the Chicagos being saved from a shut-out by Bodie's home run in the fifth inning.

The Boston Red Sox split even with the Detroit Tigers in a double-header yesterday, the Champions taking the first game and dropping the last to the visitors. Earl Mosley, a recruit, twirled the morning game for the Sox, making a very auspicious debut, allowing six well-scattered hits to the Tigers. Bedient was uncertain at stages, and the Tigers easily won the afternoon game, four to three.

A timely batting rally in the sixth inning with the score leaning Cleveland's way, put the Senators two runs to the good and won yesterday's opening game of the series. Mullin and Hughes did the twirling and between them dished out a hit for each inning, the Naps' twirler allowing an equal number.

The New York Yanks have ceased to be interesting, but it may be stated that they dropped another one yesterday, St. Louis "taking candy from the baby" in this instance. Four pitchers were used by Chance, all of which were batted hard at opportune moments.

Athletics Still Going

Philadelphia, June 17. — Bodie's home run into the leftfield bleachers saved Chicago from a shutout by Philadelphia today. The score was 7 to 1.

THE RETURN RACE.

Motor Boats Returning From Bermuda to America.

Hamilton, Bermuda, June 17.—The motorboats which competed in the race from Philadelphia to David's Head for the Bennett trophy were scheduled to start this evening in a return race. Only two of them, however, Barbara II, and Tocsam, with Trixie, a Bermuda entry, got away. The Dream was delayed owing to a mishap to her propeller.

The three boats were sent off at 6 o'clock, but the Trixie within a few minutes returned. At 7:30 Barbara II was leading by one mile. The finish line is off Bay Ridge, Brooklyn.

Easton, Pa., June 17. — A new world's record for a four-mile relay race was made here today by members of the team of the Boston Athletic Association when they covered the distance in 17 minutes, 51 1-5 seconds. The best previous athletic club record was 18 minutes, 8 4-5 seconds by the Irish-American Athletic Club, of New York.

Kansas City, Mo., June 17.—Application for a final decree in the receivership of the Kansas City, Mexico & Orient Railway, to make possible the sale of the railway, was filed today before Judge Pollock in the Federal Court in Kansas City, Kansas, by attorneys for the United States and Mexican Trust Company and the bondholders of the road.

STATE RATE DECISIONS

Believed to be the Signal for Fight by the Railroads

Washington, June 17.—The State rate decisions which marked the session of the Supreme Court yesterday are regarded by some as merely the beginning of a fight by the railroads against low rates.

In each case where a railroad failed to sustain its claim that the State rates were confiscatory the Supreme Court specifically reserved the right of the road to begin new proceedings. This was true as to two roads in Minnesota, twelve in Missouri, and two in Arkansas, where Justice Hughes said the data on which the claim of confiscation was based was too general. Whether any road can collect data before the Inter-State Commerce Commission concludes its valuation of all railroad property in the United States with sufficient accuracy to satisfy the court that proper valuations have been arrived at is a new question. Justice Hughes made it clear that the court would not accept generalizations or opinions as to valuations and expenses.

Even tests of days or weeks will not satisfy. Lawyers construe the court's opinion as saying that the railroads must invent a more detailed system of bookkeeping.

It has been estimated that the Inter-State Commerce Commission will not complete its valuation within five years. In the meanwhile, that is regarded as certain that some railroads will seek to convince the court they have accurate figures to show confiscation.

Within the week after the Minnesota rate decision was announced the Norfolk & Western filed in the Supreme Court a suit in which it claimed the two-cent passenger law of West Virginia was confiscatory. This law was held constitutional in the suit of the Chesapeake & Ohio, but that it did not raise the point of confiscation.

The unusual situation of low rates being applicable to some roads in a State and not applicable to others, was pronounced by Justice Hughes in the Missouri rate decision as being entirely constitutional.

CHILD INJURED BY DOG

Little Girl Badly Hurt by Savage Canine at Snow Hill

Kinston, N. C., June 17.—A passerby, armed with a buggy whip, rescued five-year-old Evelyn Avery, the daughter of a locomotive engineer of this city, from a bull dog in Snow Hill, where she was visiting. The dog had the child prostrate on the ground, and had lascerated her shoulder and legs badly before he was beaten away.

A companion escaped when the savage canine leaped upon the Avery girl. Medical attention was rendered and the child's condition is not considered serious. The dog, the property of a conductor on the Carolina Railroad, was killed.

Miss Sybil Hyatt, of the staff of the North Carolina School for the Feebleminded, is attending the second annual field workers' congress for the study of eugenics, at Cold Spring Harbor, N. Y., and is scheduled for a talk at an experience meeting on the last day of the session. The object of the meeting is to develop the best method of doing field work, because eugenics is yet a science in the making. Miss Hyatt will complete a course in psychology at Columbia University after the conference is concluded.

WITH THE MOVIES

While hot weather prevailed in Wilmington yesterday the Bijou was as cool as the proverbial cucumber and large audiences enjoyed the swell programme. It is ever so at the Bijou, and that is what makes the cool theatre such a popular place these warm days. The price, too, is attractive—always 5 cents. Today a great Vitagraph success, "The Wings of the Moth," with clever Florence Turner in the star role, is a topliner. It is a gripping dramatic. Edison has a great dramatic, as well as novelty on in "An Accidental Alibi." It tells how a man accused of murder proves an alibi by moving pictures. The best Pathe Weekly of all is also a feature, winding up with one of those scream "Mutt and Jeff" pictures and today's superb Bijou bill must not be missed.

The Grand's Offering

Today is going to be one great variety, of solid comfort regardless of the weather, of plenty of laughter, an abundance of thrills and much merry music at the handsome and cozy Grand, where the price of admission is 5 cents. Four swell pictures are on today and the list is lead by a beautiful dramatic, Kalem's "The Poet and the Soldier," adapted from Trench's famed poem, "Apollo and the Seaman." The big bunch of comedy films is headed by Lubin's "Clarence at the Theatre," which tells of poor Clarence who sits behind a big hat. There is another laugh-a-second film in "Fixing Auntie Up," a matrimonial farce comedy. And there is another comedy, in the Vitagraph's "Put Yourself in Their Place." It is a comedy with a moral that parents should see. The Grand is a mecca these hot days.

THE INDIAN APPROPRIATION

Consideration of the Measure Postponed After Warm Debate

Washington, June 17.—Debate in the Senate over the Indian Appropriation bill waxed warm today and consideration of the measure finally went over until tomorrow without a vote.

Senator Lane, of Oregon, member of the Indian committee, charged his associates with presenting a bill with such meagre information before them that they were derelict to their duties. Senator Stone, chairman of the committee, retorted that Senator Lane was "just firing off without knowing what he was talking about."

Senator Chilton, of West Virginia, knocked out of the bill a proposed $2,500 increase in salary for Cato Sells, of Texas, the newly appointed Indian commissioner. Fifty men in West Virginia, he declared, would be willing to take the job at $5,000.

Senator Gallinger had stricken out a provision for the settling of some 20 land suits in Eastern Oklahoma, saying that they must be of importance to some one and he had not had sufficient information in regard to the wisdom of the legislation.

A debate over the annuiment of contracts with Indians relating to tribal funds was in full swing when the Senate adjourned.

Senator Fall had declared the committee was seeking to annul contracts because it was charged a lobbyist held them. He declared holding up the Indians thus while some one robbed them was small business for Senators. Senator Ashurst replied that the facts were that ex-Senators and lobbyists were seeking to rob the Indians.

Washington, June 17.—Representative Campbell, of Kansas, introduced today a bill to reduce the number of members of the House after March 3rd, 1917, to 233, in place of the present membership of 435.

CUBS BLANKED THE PHILS

Won Opener at Philadelphia Four to Nothing—Giants Batted Out a Win—Brooklyn and Boston Winners.

The National League leaders were shut out, 4 to 0, by the Chicago Cubs yesterday, and now there is only a matter of 55 points between the Phillies and second place, New York being the present strongest bidder for first position under the doolnites.

The locals bunched hits off Brennan, who dropped his last game, and he was replaced by Moore, who held the Cubs hitless for the remainder of the game.

The New York Giants batted three Cincinnati twirlers out of the box in the first three innings of yesterday's game, and won 6 to 2. Packard started, Ames relieved him and was succeeded by Harter.

The Car Dodgers won again from St. Louis yesterday by hitting Perritt hard enough to score eight runs, while the locals got but three.

The Boston Braves won another game from Pittsburg, O'Toole pitching the best game of his career, but going down to defeat. The veteran allowed just three hits in nine innings, Carey's muff in the seventh inning throwing the game for him.

Cubs Shut Out Phillies.

Chicago, June 17.—Chicago shut out the league leaders 4 to 0. The locals bunched hits off Brenuan and he was replaced by Moore, who held the locals hitless for the remainder of the game. Errors allowed Chicago to score a run off Moore in the sixth.

St. Louis .....000 000 300—3 9 3

Yingling and O. Miller; Perritt, Marbet and McLean and Roberts; time 1:40; umpires Rigler and Byron.

Braves Won From Pirates.

Pittsburg, June 17.—O'Toole pitched one of the best games of his career this afternoon, but lost to Boston 1 to 0. Carey's muff of Connolly's fly in the seventh inning, lost him his game. Connolly, first man up went to second on the muff. Sweeney sacrificed. Carey then missed a low liner by Titus, but the catch would have scored Connolly anyhow.

PROMINENT WRITER DEAD.

Passing of Nathaniel P. T. Finch, Well Known Newspaper Man.

Birmingham, Ala., June 17.—Nathaniel P. T. Finch, editorial writer on the Birmingham Age-Herald since 1898, died here today of apoplexy at the age of 75 years. Mr. Finch formerly owned a large interest in the Atlanta Constitution, but sold his holdings in 1886. He was an intimate friend of the late Joel Chandler Harris and enjoyed a wide acquaintance among men in public life. He served in the civil war in the 69th New York volunteers and did extensive work as a war correspondent.

His body will leave Birmingham Wednesday night for interment in the officers' section of Arlington National cemetery in Washington.

CONSTITUTION AND SCHOOLS

Committees at Work on Proposed Changes Affecting Education—Wilmington Concern Chartered—License Tax

(Special Star Correspondence.)

Raleigh, N. C., June 17.—The legislative committee of the North Carolina Teachers' Assembly, of which Dr. J. Y. Joyner, State Superintendent of Public Instruction, is the chairman; and the committee on education or Article IX, of the State Constitution, for the Legislative Commission on Constitutional Amendments, are holding conferences here relative to proposed changes in the Constitution as to changes needed in Article IX.

Dr. H. Q. Alexander is chairman of the legislative committee. Some of the changes being most discussed and that seem to be the most likely to be adopted for recommendation, are to make the minimum public school terms six instead of four months and to change the State Board of Education so that instead of consisting of the Governor and State officers, it shall consist mostly of professional teachers, with possibly members from each of the Congressional Districts of the State.

Charters are issued for the Murchison Garage & Machine Co., of Benson, capital $25,000 authorized and $15,000 subscribed by Alonzo Parrish and others, for general garage, automobile and machine shop business; the Moore Hardware Co., of Carthage, capital $6,000 by G. C. Graves, I. C. Nance and others, and the Wilmington Fruit Exchange, Inc., capital $100,000 authorized and $3,000 subscribed by Thomas C. Mayronechols, Peter Poelos and N. Koslehosz, for dealing in fruits of all kinds, meats and produce generally.

The State Treasurer is sending to all the sheriffs of the State official notices that the sheriffs will be expected to give special attention to the enforcement of section 72 of Revenue Act and see to it that no agents of automobile companies are permitted to sell machines unless the manufacturers of the machines offered have paid the $500 annual license and the agent has a duplicate of the license in his possession.

State Commissioner of Insurance James R. Young is issuing the checks to 50 fire-fighting companies in as many towns of the State for their portion of the Firemen's Relief Fund derived from a special tax on the insurance companies. It amounts this year to $871.

Dr. Albert Anderson, the new superintendent of the State Hospital for the Insane here, has, through the cooperation of Chief Brockwell, of the city fire department, inaugurated a series of fire drills for the hundreds of patients, the drill to be participated in by all the patients whose mental status will justify their being put through it. Other precautions as to fire and the protection of the property and the patients are being taken, including a regularly trained fire brigade of the class of patients whose condition will permit of their being practically trained in this respect.

Sheriff Sears, of Wake county, has just settled with the county for the 1912 taxes, the grand total being $248,861. The State taxes amount to $60,444 and the grand total taxes collected in Wake amounts to $318,600.

HAD ONE WIFE TOO MANY.

And When Negro Preacher Beat One He Was Found Out.

(Special Star Correspondence.)

Kinston, N. C., June 17.—When he beat the one with the best claim upon his affections, it developed that Amos Dawson, a negro preacher and organizer of lodges, had two wives at his farm at Falling Creek, in this county.

Dawson kept both women on the same premises, but under separate roofs. He beat one of them so badly that the woman, her face swollen from blows from his fists, came to the sheriff's office here today and preferred charges against him. She told of an affinity whom her husband maintained on equal terms with her, although not lawfully married to wife No. 2. He had given both the privilege of his credit at a country store, and proclaimed that he would keep the illegal wife as long as she lived, and continued to maintain both establishments comfortably until the domestic trouble which put the sheriff on his trail.

Dawson, a sleek, portly person, of consequence among the colored people of his neighborhood, will have to face a complication of charges which will probably net him a long sentence.

PLEA FOR CONSERVATISM

Keynote of Underwood's Address at the University of Virginia

Charlottesville, Va., June 17.—A plea for conservatism in politics, a "stop, look, listen" policy to guard against hasty adoption of ill-considered proposals, was the keynote of an address on "The Tendency of Our Times," delivered at the University of Virginia today by Representative Oscar W. Underwood, of Alabama, Democratic Leader of the House of Representatives. It was a notable occasion at Charlottesville, with many of those who have gone forth from the University in the past reassambled to pay tribute to their alma mater. Mr. Underwood is president of the alumni and his son was among the graduates.

Mr. Underwood preached the doctrine of the political uplift. "There are many changes," he said, 'taking place today in the political, economic and industrial development of the nation. To the man lost in the maze of his own business, who has not the time or desire to climb to the heights above his own personal desires and ambitions, the way seems dangerous and the onward mach beset with peril. But the man who is not tied down by the personal equation is able to realize that the line of march leads to the progress of mankind and uplift of society."

Mr. Underwood said the adoption of two amendments to the Constitution within the past year, one affecting the political machinery of the government and the other changing the fiscal policy of the nation, clearly demonstrated that there is a strong sentiment in the country to break away from the fixed standards that have controlled the government in the past and that an onward movement is leading to the adjustment of National life to new conditions and progressive ideals.

"No man," he added, "is so bold as to declare that the recent constitutional changes are not in the interest of better government for the whole people and that they have not equalized and strengthened our fiscal system.

"Only a few years ago a political party that contended that taxes on consumption should be diminished and that part of the government burdens should be borne by the wealth of the country was hailed before the bar of public opinion as being guilty of extreme radicalism. Yet even those who condemned the proposal have enacted a law taxing corporate wealth and have ceased to protest against an equitable income tax that shall fairly distribute a part of the tax burdens of the government on incomes derived from all classes of property. The tendency of our times undoubtedly is toward greater freedom of thought, uplife of humanity, abolishment of governmental privilege, equalization of the taxation burdens and an open, honest administration of the laws.

"What may be regarded as radical today may be the inner citadel of conservatism tomorrow. The danger that confronts us in the onward march of the nation comes from the hasty adoption of ill-considered proposals, sometimes coming from honest but ill-advised advocates of real progress, and as often coming from the cunning hirelings of reactionary interests who would under the name of progress start a false movement to mislead and confuse in the hope that they may delay the day when special privilege shall be divorced from our economic and governmental system. We should move forward with conservatism that will avoid a reaction in public sentiment and abandon a radical on-rush that may lead to disaster or delay the accomplishment of a good result."

Mr. Underwood paid tribute to the precepts and teachings of Thomas Jefferson, the founder of the University of Virginia, as "a lamp unto the feet and a light unto the path."

San Angelo, Texas, June 17.—Because they considered all bids too low, a wool association here rejected bids today on nearly two million pounds of Spring wool. The wool buyers claimed the proposed tariff reduction will affect prices. The management of the local association declared the tariff would not affect prices to them.

MR. A. T. PARMELE DEAD

Former Citizen of Wilmington Passes at Lumberton

(Special Star Telegram.)

Lumberton, N. C., June 17.—County Auditor A. T. Parmele died here this afternoon at 4:30 after being confined to his room by illness for ten days. He had not been in good health for some time, but held out as long as possible before giving up.

Mr. Parmele was a native of New York but had resided in North Carolina for several years, moving from Wilmington to Lumberton 12 or 15 years ago. He was about 40 years old and was one of the county's best citizens and most efficient officers. He is survived by a wife and three children, the youngest being only two months old. The funeral hour has not been announced.

Port Au Prince, Hayti, June 17.—An epidemic of bubonic plague has broken out at the seaport of Jacmel, 30 miles from here. Numerous cases already have resulted fatally. Jacmel has been isolated from the rest of the country by a cordon of troops and the government is taking energetic steps to prevent propagation of the disease.

Franklin, Pa., June 17.—After holding a posse at bay all night, Edward Bartholomew was found dead in a shanty near here with his throat cut this morning. Bartholomew yesterday shot and killed Samuel Crow there after they had quarreled and fled to the shanty. He was wounded during the night battle and as the posse closed in on him this morning ended his life.

Washington, June 17.—The heat wave prevailing from the Rocky Mountains to the Atlantic coast promises to continue for the next 48 hours. Relief may be expected in the Middle Atlantic States for which slightly lower temperatures tonight and Wednesday are forecast. Today promises high temperatures almost everywhere east of Denver.

New York, June 17.—Dr. Friedrich Friedmann, the Berlin physician who announced several months ago that he had a cure for tuberculosis, sailed for home today. His institute here was closed recently after the board of health had forbidden the use of his vaccine. The doctor did not say whether he would return.

That Corn Is a Sure 'Goner,' Now

"GETS-IT," the New-Plan Corn Cure, Gets Any Corn Surely, Quickly.

You'll say, "It does beat all how quick "GETS-IT" got rid of that corn. It's almost magic!" "GETS-IT" gets

"Never Could Do This Before. "GETS-IT" Made Every Corn Vanish Like Magic."

every corn, every time, as sure as the sun rises. It takes about 2 seconds to apply it. Corn pains stop, you forget the corn, the corn shrivels up, and it's gone! Ever try anything like that? You never did. There's no more fussing with plasters that press on the corn, no more salves that take off the surrounding flesh, no more bandages. No more knives, files or razors that make corns grow, and cause danger of blood poison. "GETS-IT" is equally harmless to healthy or irritated flesh. It "gets" every corn, wart, callus and bunion you've got.

"GETS-IT" is sold at all druggists' at 25 cents a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago.

THE INTRA-COASTAL WATERWAY

When water transportation is responsible for greatly increasing Wilmington's importance as a distributing point, it is hardly necessary to continue to emphasize navigation as a factor in bringing about economy in transportation. Nevertheless, it is well to do so for the reason that thousands of people overlook advantages that come right under their eyes.

Much is said of the economy of water transportation, but if no economy were involved in it, the means and facilities it affords for transportation and travel are probably more important than the matter of economy. Wilmington, for instance, is beginning to appreciate very fully the benefit of ocean transportation to all parts of the world, and it is perceptibly feeling the impulse of river transportation affecting a territory of probably a thousand square miles. Few people have stopped to think that Wilmington has the advantage of water rates along 400 miles or inland waters in North Carolina and 300 miles of inland water in South Carolina, even extending to the capital city of South Carolina.

The means exists in our inland waters for reaching an immense territory and the best of it is that the facilities are good. It is well for live business men to take note of this splendid means for distribution and to see to it that the facilities for transportation are equal to the means of navigation. It is safe to say that ocean and river transportation has added $10,000,000 of commerce to the business of the port of Wilmington within three years, and as the facilities for water transportation increase it is certain that commerce will increase.

While the facilities that are to come by reason of the completion of the Panama canal loom large in the future, we must not forget that in five or six years it is quite probable that the Intra-Coastal waterway will be extended to Wilmington, and thus add another 400 miles of inland navigation, with the ultimate possibility of inland connection with the Great Lakes. However, the day is fast approaching when the inside route will be open from Norfolk to Wilmington. Especially interesting, therefore, is a map of the Virginia-Carolina waterway link of the Intra-Coastal Waterway, which appeared in the June number of the Bulletin of the Atlantic Deeper Waterways Association. An article in The Bulletin says:

"The United States government has paid the item of $500,000 agreed upon as the purchase price of the Chesapeake & Albemarle Canal, connecting the Elizabeth river, on which Norfolk is located, with Albemarle sound in North Carolina. The canal will be opened at once to free traffic and it is anticipated that a great saving will result to shipments in the Virginia-North Carolina district and that a large commerce will be built up. Immediately following the acquisition of the canal the government engineers will make plans for deepening it to a minimum depth of 12 feet. This is one link in the chain of waterways which is to connect Hampton Roads with Beaufort Inlet, cutting out the dangerous passage around Cape Hatteras. The Beaufort cut was completed some years ago.

"The engineers have been surveying a short cut between Albemarle sound and the Beaufort waters, and Congress will, no doubt, soon provide for the completion of the entire link. The transformation of the Chesapeake & Albemarle Canal into a free public highway marks a very important step towards the completion of the entire Atlantic Intra-Coastal waterway, advocated for the past six years by this association. The government is now fairly committed to the project and the rapidity of progress on it will depend largely on the sustained enthusiasm of its supporters. Now is not the time to slacken up in the work of promoting this important matter. The encouraging outlook should rather stimulate every one of our members to greater activity until the whole work is done.

"There is still available $900,000 for continuing the work of improvement during the coming fiscal year. This will include the construction of a dredge. It is estimated that about four years will be necessary to complete the waterway from Norfolk to Beaufort. The details of the purchase were carried out by Col. Winslow, army engineer in charge of the Norfolk district. We heartily congratulate Hon. John H. Small, of North Carolina, who has labored so long in support of this important matter and who now has the satisfaction of seeing the beginning of the intra-coastal waterway in his district. Senator Simmons, of North Carolina, is also to be congratulated.

"The accompanying map shows not only the Chesapeake & Albemarle Canal, but the entire projected waterway between Norfolk and Beaufort.'

The taking over of the Chesapeake & Albemarle Canal means that it is only a matter of time that the Intra-Coastal Waterway will be cut from Beaufort down the coast to Wilmington. The engineering obstacles are not very great and when the work is begun in earnest, Wilmington will realize what it is to be a port on the inland route as well as an ocean and river port of constantly growing importance. If we get behind this project, it need not take more than four or five years for the Intra-Coastal route to be open between the Cape Fear and Hampton Roads.

The Hon. J. Hampton Moore, the able Congressman from Philadelphia, is editor of The Bulletin of the Atlantic Deeper Waterways Association. He is very generous in giving credit to our North Carolina Senator and Congressman, but North Carolina does not fail to remember how great a share belongs to the distinguished and able gentleman from Pennsylvania. Congressman Moore is modest but his work is so great it speaks for him.

NORTH CAROLINA MERCHANTS

Wilmington has a cordial welcome for the North Carolina Merchants' Association now holding its annual convention at Wrightsville Beach. Business men from all quarters of the State are in attendance and Wilmington is proud to have so representative a class of men in her midst. They are the men who are doing the business of their respective communities and who have such a large share in the progress and development of their State. It is hoped their stay will be pleasant and enjoyable and yet more profitable for them individually and as a class and more wholesome for the State in a strictly commercial way.

Wilmington's visitors are combining business with pleasure. They have a great interest to protect, to safeguard and to foster, and it need not be said that their prosperity means much in the general progress of the State. Their success and standing gives North Carolina her credit and recognition abroad as a business community, hence the entire State is deeply concerned in the success and prosperity of her merchants. They are responsible for the commercial progress of the State, and with their surplus they are meanwhile taking a hand in the industrial and agricultural development of North Carolina. It is this substantial class of representative North Carolinians that are in Wilmington for a brief stay.

Our visitors should take note of Wilmington while they are here. They are reminded that they are in a city which does from $75,000,000 to $80,000,000 of jobbing business annually, not to mention the large and continually expanding retail business of the city. They are reminded that Wilmington's foreign, coastwise and river commerce will this year foot up about $75,000,000, while her manufactured products will push $25,000,000. Wilmington's manufacture and distribution of fertilizers and fertilizer materials this year will approximate $16,000,000 alone.

The North Carolina merchants who are here should be specially interested in North Carolina's ocean gateway, for they must recognize that it is to this port that they must ultimately look for a solution of their freight rate problem. Whatever justice they may attain in their fight against ruinous discriminatory rates, after all it is the scientific and technical basic point that they must secure as the trip-hammer in their argument. It is not a port here nor a port there to which they can look, but to an actual deep water port with an actual commerce and with the ample steamship service that will afford water competition with rail transportation. However, it would be more correct to say that the need of the State is a deep water port with the ample steamship service and low water rates that will compel the railroads to compete with water rates.

Deep water alone would not constitute a rate-basing port, but mark well that deep water is a sure means of securing the steamship service that after all constitutes the competitive factor that will lower rates. No port will be admitted into the class of rate-basing ports till it has deep water, ample steamship service, and competitive railways into a large territory that may be considered as dependent upon such a port for distribution. Wilmington is making wonderful strides towards the rate-basing class of ocean gateways. The channel from Wilmington to sea is being deepend by the government, the steamship service of the port is increasing and the railway distributors are here to handle the traffic that water creates. The larger the ocean traffic becomes the more valuable a port becomes to the railroads and they are quick to recognize it and utilize it in their business.

The port of Wilmington already has largely increased the traffic of the railroads. They are handling millions of dollars of manufactures and commodities that reach here by water and necessarily furnish traffic for distribution into the interior. The railroads had to meet this demand upon them by the growth of the commerce of Wilmington, as witness the splendid new terminals of the Atlantic Coast Line and the Seaboard Air Line. At these terminals ocean and rail traffic meet, and the terminals are but the links between water and rail. Without the terminals the connection would be lacking, and the effectiveness of the two means of transportation would be naught. While the merchants are here it is hoped they will inspect the harbor terminals and observe that where the ships land there stand the cars ready to distribute the ocean traffic to distant interior points. This combination of modern water terminals and railroad service economizes the handling of traffic and it is in a continuation of this economy that sooner or later will bring benefit to the entire State of North Carolina.

The Champion Compress and Warehouse system represents a high type of modern terminals, and so do several warehousing plants as well as those of the great fertilizer factories of Wilmington. A look around the port will give the visitors an insight to the present progress of the port and open their eyes to the possibilities of the future. It is all right to see Wilmington, but also see the port of Wilmington.

This ocean gateway, of which Wilmington and Southport are the ocean stations, is the hope of North Carolina. Recognize it now, depend upon it, and unite upon it for the completer progress of North Carolina.

CURRENT COMMENT.

If you do not believe the towns are footing the bills, just examine the statistics of the counties that have no large towns within their borders and see what they are doing in the matter of maintaining public schools, building good roads and meeting the other demands of modern civilization.—Durham Herald.

That North Carolina county which has made an appropriation to assist its teachers in attending Summer normals is setting an example worthy of general emulation. In Virginia the school authorities recognize the value of the training so received by making periodic attendance at these normals compulsory. In view of this requirement and of the fact that the pay of teachers is meagre at best, the expense should either be put directly upon the public or the salaries of the teachers should be increased sufficiently to cover it. Common fairness and simple justice demand no less.—Norfolk Virginian-Pilot.

Mr. W. L. Holt has sold his place, "Bonnie Doon", situated about seven miles southwest of Fayetteville, to Mr. A. F. McGuire. The tract comprises 600 acres, including a beautiful lake, set in the midst of high hills. At this lake is a pretty and comfortable lodge, where Mr. Holt's family sometimes stayed during the heated terms, and where he often royally entertained his friends at fishing and pleasure outings. If we mistake not, "Bonnie Doon" was originally owned and named by Mr. James Banks, a lawyers and full-blooded Scotchman who lived in Fayetteville years ago.—Fayetteville Observer.

Once upon a time we had considerable admiration for Senator LaFollette. Since, however, Roosevelt jumped into the primary battle after the Wisconsin Senator's inability to offer substantial opposition to Taft was made obvious, LaFollette seems to have lost his head through peevishness. He now makes intimate political companions of Penrose, et al.—who are glad enough to have him on the basis of misery loves company—and co-operates with them in their work of impediment. It is a pity he so minimizes his good work of the past, and has parted company with the group of independent Progressives who have laid narrow partizanship aside. Incidentally, he is making day by day clearer the reason why Roosevelt displaced him. Soon he will degenerate into a mere nuisance. It is pathetic.—Newark News.

DOGS AND BOOZE IN WILSON.

Police Spill Contraband Whiskey and Kill Nine Dogs.

(Special Star Correspondence.)

Wilson, N. C., June 17.—Captured whiskey and impounded dogs fared badly at the hands of the police in this city today. Fifteen gallons of contraband booze, seized from blind tigers recently, were poured out and nine canines, in the pound which attracted no owners, were killed.

OFFICIAL VISIT TO BEACH

Dr. Nesbitt Pleased With Conditions Found at the Resort Hotels on His Inspection Yesterday Morning

"I expected to find everything in tip-top shape from a sanitary standpoint, but I never dreamed that conditions were as nearly ideal as it is possible to make them at a seaside Summer resort as I found them to be on my first official visit and inspection of the hotels at Wrightsville Beach this morning," said Dr. Chas. T. Nesbitt, superintendent of health, yesterday, soon after he returned from the beach.

Dr. Nesbitt made a thorough inspection of the kitchens and store rooms at the Oceanic and Seashore hotels, the Hanover Inn and the Seashore cafe. He will visit and inspect other places on the beach within the next few days. Mr. John Mathers, sanitary engineer and plumbing inspector, will visit the resort one day this week and make a thorough inspection of the sewerage system.

In speaking of his inspection yesterday Dr. Nesbitt had the following to say:

"The kitchen and store rooms at the Oceanic Hotel are in charge of Mr. VonBuhlen, a German, of very large experience. The cleanliness of the kitchen and store rooms is evidence of the interest and sincere intention of Mr. VonBuhlen to conduct department for the benefit of the public. It is surprising that with the facilities he has at hand he has succeeded so well in taking care of his food supplies. Various kinds of food were stored in different ice boxes and kept well packed and covered with ice at all times. There is only 24 hours' supply of meat in stock at any time and no meats or perishable foods to be seen, which were not in a wholesome condition. The work table in the kitchen and in the bake shop were clean and all showed the result of continuous vigilance.

"It must be remembered that in hotels that open only a small part of the year that it is impossible to provide permanent sanitary fixtures of the highest type. But Mr. VonBuhlen is certainly trying to make the most of the means at hand for the care of food and protection of the guests.

"The kitchen and store rooms of the Seashore Hotel were clean and orderly and the refrigerators were sweet and entirely without the stale odors that are so frequently found in such places. Mr. Apter, the steward, has set a high standard of cleanliness. The floors of the kitchen at the Seashore were covered with clean, white sand, which is scrubbed out each morning, when the kitchen is cleaned and replaced with fresh sand. As at The Oceanic the different classes of food are kept in separate ice chests so that there may be no contamination of meats and butter and other perishable foods from vegetables. The seafoods are kept in iron receptacles embedded in ice and as at The Oceanic no meats, fish or other seafoods of any sort are served to the guests that have remained in the ice chests more than 24 hours. The supplies on hand early this morning when the inspection was made proved this to be the habit.

"In spite of the fact that in these kitchens there were no fly screens there was scarcely a fly to be seen, refuse being kept in closed receptacles and the meat blocks and work tables scoured and free from scraps.

"The kitchen of the Hanover Inn was clean and orderly and in charge of a chef that showed an intelligent interest in his work. The Seashore cafe also was inspected and found to be in a clean and sanitary condition.

"The managers of the Oceanic and Seashore hotels are to be congratulated for having secured the services of such efficient and intelligent men as Mr. VonBuhlen and Mr. Apter and the patrons of the beach can feel secure so far as the culinary departments of the places visited this morning are concerned.

"These inspections were made while the kitchen force was busy cleaning up after breakfast, which is probably the most unfavorable time to visit the kitchen of a hotel. Both hotels have mechanical dish washers and heating chambers for the clean dishes."

Dr. Nesbitt made a number of suggestions of minor importance and was assured that they will be carried out immediately. These inspections will be made at intervals throughout the Summer.

SAILORS WELCOMED AT PORT

Work of Christian Endeavor Society Attracts Attention

The following is from yesterday's Greensboro News:

"Sailors on the ships that put into port at Wilmington are met by a group of Christian Endeavor workers of that city and given a cordial welcome, according to a report made last week to the State Christian Endeavor Union, in convention at Raleigh last week, by Thomas C. Finley, superintendent of the floating endeavor work. An interesting account of this report was brought here by Rev. Earle J. Harold, who attended the convention.

"Every ship that comes into port is met by this band of consecrated Christians and meetings are held on board. The members of that society respond in half an hour's time when a new ship comes in, and the sailors have come to look forward to the hospitality and to the invitations to tea that are given. Mr. Finley's is an old seaman and knows how to interest the sailors.

"The sailors are invited to attend church if they are in the city on Sunday, and on a number of occasions the street before some church door has been lined with them waiting to enter for the services."

GREENVILLE ROAD MATTER.

Mr. Joe Fenley Indicted on Charge of Obstructing Road.

The Greenville road matter has reached the stage where it will get into the courts, Mr. Joseph Fenley, who is charged with obstructing the road, being indicted yesterday, the warrant having been sworn out in the Recorder's court by Mr. J. L. Williams.

The paper reads that the defendant has obstructed the highway at a point near the two-mile post on the turnpike, by cutting a ditch and constructing a fence across the road. Among the witnesses summoned are Messrs. James Hewlett, Abram Bishop, E. H. Freeman, C. C. Chadbourn, Jos. Winstead, Richard Beasley, and others. The hearing is set for Friday, before the Recorder.

Body Taken to Wilson

The body of Mr. James C. Walls, who died Tuesday afternoon at the home of his daughter, Mrs. E. C. Hudson, No. 614 Walnut street, was taken to Wilson yesterday morning. The funeral was at Wilson yesterday afternoon at 4 o'clock. The remains were accompanied by Mrs. Walls, Mrs. Hudson and her son.

ASK SPECIAL TERM COURT

County Commissioners Adopt Resolution Asking Governor to Call Extra Term With Judge Rountree Presiding.

At its meeting yesterday afternoon the Board of County Commissioners adopted a resolution asking Governor Craig to call a special term of court for the trial of criminal cases, and designate Judge George Rountree to preside at same. July 14th was named as the date it is desired the special term open.

The action of the board was taken after W. P. Stacy, Esq., had set forth the need of a special term, and Clerk of the Court Harriss had emphasized same. Mr. Stacy stated that the jailer now has 24 prisoners and that the clerk said there are several appeal defendants out on bond. The new judicial law of the last Legislature takes effect July 1st, and in rearranging the courts of the district, it cuts out the regular July term of criminal court, with the result that not until September 7th will there be opportunity to try any criminal case. Mr. Stacy called attention to the fact that some of the defendants in jail might be innocent, in which case it was an exceedingly great hardship on them; and if guilty, they should be on the roads. As it stands, the county is at considerable expense.

Clerk Harriss stated that there had been 15 appeals from the Recorder's court in 20 days, and that by September court there would undoubtedly be more, as well as more prisoners in jail.

Mr. J. Allan Taylor appeared before the board in regard to the fund set aside for the detection and arrest of criminals. Mr. Willard informed him upon inquiry, that the Commissioners appropriated $500 and placed its expenditure in his hands, and that $200 had been spent under the administration of former Councilman B. C. Moore, leaving $300 on hand.

Mr. W. H. Sprunt asked that the board in revising the jury list, leave in the box those who are legally exempt from jury duty, and that when the time came for them to serve, then they could get excused if they did not wish to serve. As for himself, while exempt because he contributed to the Wilmington Light Infantry, yet he didn't wish his name left out, preferring to serve when called on, as he did not wish to shirk a duty of citizenship; and he thought many others exempt thought the same way. The board thought Mr. Sprunt an exception to the rule, but promised him to keep his name in the box. "And put in Mr. Taylor's, too," said Mr. Sprunt, on leaving, and this was promised, too, Mr. Taylor being agreeable.

Mr. L. B. Sasser, of the Mission Pharmacy, stated to the board that he understood that if the county would appropriate $1,000 for agricultural purposes, Sears Roebuck & Co., and a Crop Committee in Chicago would each give $1,000 additional, making $3,000 available for the promotion of agriculture in this county. He stated that Mr. J. P. Herring, who gets $80 a month for eight months, half of which is paid by the county and half by the government, was serving at a loss, that he was worth more than he gets and that he should have more. The board agreed with him, and appointed a committee composed of Commissioners McGirt and Kerr to look into the matter with a view of strengthening this work another year.

Clerk W. A. Williams incidentally told how Mr. Herring came to be farm demonstrator. State Agent Hudson came here last year and in traveling over the county in an auto with Mr. M. W. Divine, then Commissioner, discussing this very subject, he saw Mr. Herring's corn fields, and without knowing who owned them, declared that he had found the man he wanted for county demonstrator.

Mr. L. E. Thomas was present at the meeting for the purpose of getting straight the record of Joe Foxworth, colored, whose sentence on the roads for a violation of the law expires today, but whom the officials intend to hold for back costs. Mr. Thomas stated that he was sure he had paid costs for the negro about the time the alleged back costs are dated, and wished to see if he couldn't get the negro off the roads without having to pay again. The board left the matter with the chairman and county attorney, but advised Mr. Thomas to see former Clerk Fred Skipper, of the Recorder's court and try to ascertain if the costs had been paid.

The bill of Mr. W. H. Shearin, who formerly supplied the convict camp, amounting to $741, for clothing, food, medicines, utensils, etc., was ordered paid when approved by Clerk W. A. Williams.

A bill for $2,000, one-fifth part of the cash payment for the incinerator, was received from the City Council, and there was another discussion as to whether the county should require an interest in the site of the incinerator, or simply pay its one-fifth cost of the building. Commissioner McGirt favored dropping the matter of the title to the site, but Commissioners Yopp, Moore and Kerr were opposed. Finally a motion was passed which was to the effect that the $2,000 would be paid when the county received a deed conveying to it its interest in the site. No official communication relative to the matter was received from Council. Following this, the Commissioners will then proceed to turn the incinerator over to the Board of Health, as Council has done.

Commissioner McGirt stated that the work on the jury list revision was progressing but was not complete. It will likely be finished by June 23rd, when the board will meet again in special session, at 3:30 P. M.

All members were present yesterday, Chairman Willard presided and Clerk Williams kept a record of the proceedings, while County Attorney Marsden Bellamy was on hand to advise.

The Passing of "Pete."

The sudden death of the fire horse "Pete" Monday night just after he and his mate had pulled the ladder truck to 17th and Market streets in answer to an alarm, recalls that the team, "Pete" and "Harry" was purchased in Baltimore about seven years ago. They were a massive pair of horses, gray in color, and as fire horses "made good"—nothing spectacular about them, they did no smart "stunts", but every time the gong sounded they were on the job and did their part. "Pete" was about 10 years old and weighed 1,600 pounds. "Harry" is about the same weight, but is a year older. Chief Schnibben and Councilman Jones haven't decided what they will do, now that the team has been broken, but there is talk of buying a "trailer" and pulling the ladder trucks with the No. 2 auto truck. An auto ladder truck may be purchased.

DISCUSS FREIGHT RATES

New Hanover Branch Just Freight Rate Association Will be Organized This Afternoon—Organizer Here.

This afternoon at 4 o'clock a meeting will be held at the rooms of the Chamber of Commerce for the purpose of organizing the New Hanover branch of the North Carolina Just Freight Rate Association. Mr. Hubert Ramsaur, of Fayetteville, organizing secretary for the State Association, arrived in the city yesterday for the purpose of interesting the business men of the city in the matter.

He talked with many of the leading business men yesterday, and stated last night that he had met with flattering encouragement.

The North Carolina Just Freight Rate Association was born in the city of Charlotte May 8th, though the formal organization did not take place until May 15th, when a meeting was held in Raleigh to elect officers, and to formally launch the movement. During the past month the association has done good work. Its purpose is to interest not only the shipper in securing just freight rates, but all classes. It aims to get together all citizens of the State in the study of the unjust and unfair discriminatory freight rates against this State in favor of other States.

The president of the association is Mr. Fred N. Tate, a prominent business man of High Point. There are four vice presidents from different sections of the State, and an advisory board of seven members. There are three secretaries—Mr. Leake Carraway, secretary of the Greater Charlotte Club, who is corresponding secretary; Mr. J. T. Ryan, of High Point, traffic secretary, and Mr. Hubert Ramsaur, of Fayetteville, organizing secretary.

Mr. Ramsaur stated yesterday that he had met with great success in organizing branches of the association throughout the State, and he feels sure that concerted action on the part of the people will be sure to produce results. He was particularly struck with the many advantages that Wilmington offers, especially to shippers, and believes that there is a great future for this city as a distributing point.

The meeting this afternoon is open to the public and everybody who can do so is expected to attend. Mr. Ramsaur will be present and will explain what has been done in the way of organized effort on the part of the business men of the State.

THE RECORDER'S COURT.

Isaac James, Colored, Given Twelve Months on Roads—Docket.

For assaulting Cora Patterson, colored, with a knife, Isaac James, colored, was yesterday sent to the roads for 12 months. The assault was committed last week when James went to the home of the colored woman in a drunken condition, and in a fit of rage drew his knife, cutting the woman in the back, causing an ugly wound. Her husband, Carey Patterson, who was later arrested for shooting James with a load of bird shot, was found not guilty.

The cases against Ben Cottle, Dolf Bolton and Henry Woebse, who were arrested Monday night on warrants charging them with selling intoxicants, were continued until Thursday by consent. The case against J. B. Neely and S. D. Bryant, charged with selling malt liquors, were also continued until Thursday. Each of these parties was required to give bond in the sum of $200. The case against Lonnie Gurganus, charged with interfering with the arrest of Henry Woebse Monday night, was also continued until Thursday, his bond being fixed at $50.

Because he sold a pint of whiskey for 75 cents, Tom Whitfield, alias Johnny Whitfield, colored, was sent to the roads for six months. Pompey Perry, alias Warren Thompson, colored, was given three months on the roads for assaulting Eva McNight on the 15th of March with a deadly weapon. Thompson was one of a bunch of negroes arrested Sunday for gambling. Theresa Saint George and Carrie Henry, both colored, were sent to the county farm for 30 days for vagrancy.

Lewis James, a colored boy, who was arrested Monday night for riding a bicycle without a light and on the wrong side of the street, was found guilty, and judgment suspended upon payment of the costs. He was also found guilty of carrying concealed weapons and fined $15 and the costs on this charge. Judgment was suspended upon the payment of the costs in the case against Julius Galloway, who was charged with riding a bicycle on the streets at night without a light and on the wrong side of the street.

The case of H. Stein, charged with assault, was continued until this morning. The cases against E. Griffin, colored, charged with assault with a deadly weapon, and Douglass Duvall, colored, for selling intoxicating liquors, were also continued until this morning.

CELEBRATE ANNIVERSARY

Local Councils Royal Arcanum Making Elaborate Arrangements

The local councils of the Royal Arcanum are making elaborate arrangements for celebrating the 36th anniversary of the founding of the order on Monday night, June 23rd. The exercises will be held Monday evening, beginning at 8:30 in the Council chamber of Cornelius Harnett Council on North Third street. The programme will be informal, consisting mainly of short talks by a number of the members. The exercises will be followed by a light repast at one of the downtown cafes.

There are two councils in the city, and a general committee has been appointed which has as its chairman Rev. Dr. S. Mendelsohn, ravbi of the Temple of Israel. The representatives from Carolina Council are Messrs. W. J. Toomer, William Hamilton and W. J. Meredith, and from the Cornelius Harnett Council, Dr. Mendelsohn and Messrs. J. Weil and R. H. Northrop. This committee has charge of the arrangements for the celebration.

The Royal Arcanum is one of the most influential fraternal orders in the State, having more than 40,000 members. In the United States it has a membership of over two and a half million. In Wilmington the order has a membership of over 300 members. It is expected that the anniversary exercises will be largely attended, and that they will be of great benefit in advancing the interests of the order here.

CITY SCHOOL TEACHERS

Elected Recently by the Committeemen and Names Transmitted to the County Board of Education Yesterday

City school committeemen recently elected the teachers for the several city schools for the term beginning in October and the names were transmitted yesterday to the County Board of Education. Chairman J. O. Carr, of the Board of Education, announced the names of those who have been elected. Mr. John J. Blair, who has been the very efficient superintendent for a number of years, was re-elected. He is regarded as one of the leading school men in the State.

The list of teachers follows:

High School—Prof. Heman S. Shaw, principal; Miss Alice Atkinson, Miss Frederika Jenkins, Miss Isabel Gulley, Mr. Thos. P. Nash, Mrs. R. L. Cobb, Miss Kate Styron, Miss Ethel Wood, Miss Nancy Martin, Miss Jennie Wood, Miss Ethel Smith.

Union—Miss M. E. Cook, principal; Miss Adelaide Meares, Miss Kate Alderman, Miss Maude Kingsbury, Miss Annie McKoy, Miss Maggie Wood, Mrs. Isabel St. Amand, Miss Meta LeGrand, Miss Maggie Bowden, Miss Margaret Gibson, Miss Hattie L. Smith, Miss Ruth Shaw, Miss Reba Myers, Mrs. Mary D. Parsley, Miss Theodore LeGrand, Miss Sophie Hodgkin, Miss Merle McEachern, Miss Florrie Grant, Miss Edna Thompson.

Hemenway—Prof. O. A. Hamilton, principal; Misses Louise Pridgen, Ruth Farmer, Augusta Wiggins, Kate Yarborough, Claire Latrrop, Eva Farmer, Sue Boon, Bessie Lodor, Antoinette Black, Kate Johnson, Mrs. Hettie Fennell, Miss Lila Keith, Mrs. E. P. Brock, Miss Catherine vonGlahn, Miss Louise Hill.

Isaac Bear Memorial—Misses Julia Hill, principal; Gertrude Bell, Nannie Humphreys, Rebecca L. Johnson, Alice White, Thelma Smith, Jennie Jackson.

Peabody, colored—J. A. Bonnet, principal; Carrie Lane, Camille Davis, Henrietta B. Story, Eliza Nixon, May Jackson, Louise Howe, Fannie Blount, Jane Crawley, Nellie Foreman, Julia Sadgwar.

Williston, colored—W. B. Southern, principal; Azilpha Chesnut, Sara Sullivan, Marion Taylor, Mary Knight, Lillian Green, Carrie Moore, Cornelia Harriss, Leonora Williams, Matilda Story, Lillian Shober, Mabel Sadgwar.

The increased enrollment expected next Fall will likely require a few additional teachers in each school and these will be elected later in the Summer when it is found about how many new pupils there will be enrolled for the term.

HOME ENTERED BY BURGLARS.

Chloroform Mrs. Tyndall and Steal Garments—Shot at.

Burglars entered the home of Mr. Louis Tyndall on the Castle Haynes road Sunday night, and after drugging Mrs. Tyndall, presumably with chloroform, so that she would not know of their presence, stole a suit of clothes and a pair of shoes which they carried a short distance from the house and hid in a thicket.

They returned Tuesday night to secure their plunder and were shot at by Mr. Lindwood Tyndall, a brother of Mr. Tyndall, but made their escape. There were two men in the party that returned, and the younger Mr. Tyndall is of the opinion that one of the bullets took effect.

Mr. Tyndall's home is located a few hundred yards beyond the Smith's Creek bridge. His employment takes him away from home at night, and the parties who entered the house evidently knew this fact. They tore a hole through the screen of one of the windows which leads to Mrs. Tyndall's room, and evidently used chloroform to deaden Mrs. Tyndall's sensations. The burglars did not enter the room through the window, but through a side door, leading into the house. Mrs. Tyndall when she awoke Monday morning found herself in somewhat a stupid state, such as a narcotic would produce.

Mr. Tyndall when he arrived home Monday morning found tracks leading away from the house which he followed to a thicket nearby where he found the clothes and shoes hidden in the weeds. He suspected that they would return for them, and substituted some old clothing in their place, and as he could not do so himself, he got his brother to watch to see if he could get the parties, if they should return. Soon after dark Monday night two negroes returned to the spot where the articles had been hidden, and as they started to pick up the old clothes Mr. Linwood Tyndall called to them to throw up their hands. Instead of doing so they ran, and he shot at them four times in rapid succession, and is of the opinion that one of them was hit.

When they had gone several hundred yards they threw down the bundle of clothes. Mr. Tyndall did not pursue them further, but picked up the clothes when he found that several of the balls had lodged in the bundle. No clue has been discovered as to who the parties were.

"SOME" WARM WEATHER

Temperature Reaches Highest Point of Season—96 Degrees

The heat wave which wilted and prostrated the inhabitants of several Northern cities on Monday, apparently reached Wilmington yesterday, the temperature having reached the highest point of the early Spring and Summer—96 degrees.

Indeed, the heat was as intense as it usually becomes even in mid-Summer, coats and wraps that were a week ago in demand were soon forgotten and those who could do so went scurrying to the beach. Thunder clouds in the distance served to alleviate the suffering late in the afternoon, the maximum temperature having been reached about 3:30 o'clock, remaining stationery at 96 for an hour or two, according to the delicate instruments used in the Weather Bureau for recording the ups and downs of the mereury.

The hot weather appears general, reports to the Weather Bureau up to 8 o'clock last night having shown a maximum of 98 at Savannah; 96 at Raleigh; 96 at Montgomery; 98 at Augusta, and 96 at Atlanta. Charlotte had a reading of 94 maximum; Charleston and Mobile 94, with lower temperatures at other points where rain contributed toward the lowering of the temperatures.

Tinners Still Out

The tinners, employed by Prease Bros., and the Hanover Iron Works, who went on strike Monday morning, are still out, and so far no steps have been taken to adjust the existing differences. It was stated yesterday that the plumbers would take no part in the strike.

Truck Driver Suspended

Mr. A. D. Morris, driver of the truck Monday night when a fire horse dropped dead at 17th and Market streets, has been suspended by Chief Schnibben, pending a hearing to ascertain if he was in any way responsible by reason of any unnecessary hard driving, for the death of the animal. He has stated that he did not drive the team hard. The run was a long one, in answer to the alarm at the residence of Mr. J. W. Brooks, where an electric iron started a small blaze.

PERSONAL PARAGRAPHS.

—Many friends will regret to learn that Capt. Thos. O. Bunting is seriously ill at his home on Market street.

—Mr. W. W. Shaw, of Durham, is attending the meeting of the merchants at Wrightsville Beach. He formerly resided in this city.

—Mr. W. M. Muse, of Durham, was in the city yesterday on his way to Wrightsville Beach to attend the meeting of the Merchants' Association. He formerly lived in Wilmington, but this is his first visit in 30 years.

—Mr. A. J. Maxwell, secretary of the State Corporation Commission, arrived in the city last night, and will tolday deliver an address before the North Carolina Merchants' Association, now in session at Wrightsville Beach.

—Mr. H. Atkinson, who has been employed in the freight department of the Atlantic Coast Line, left last night for Phoenix, Ariz., where he hopes to regain his health. He expects to be able to return to this city at an early date.

—The following were among the arrivals at the Southern Hotel yesterday: Mr. H. M. Royal, Roseboro; Mr. W. T. Flynn, Currie; Mr. and Mrs. C. T. Russ, Bridgewater; Mr. P. S. Herring, Garland; Mr. O. T. Teachey, Teachey's; Mr. W. B. Martin, Fair Bluff.

NOT HIS JAMAICA GINGER.

None Found in Ben Cottle's Drug Store Monday Night.

The seven dozen bottles of Jamaica ginger which the officers picked up Monday night, were not taken from Ben Cottle's drug store at Eighth and Castle streets, as was erroneously stated yesterday morning, but from Henry Woebse's place of business at Seventh and Nixon streets. The nature of the evidence against Cottle has not been divulged by the officials, but the warrant on which he was arrested charges him with the sale of intoxicating liquors. Whether or not he used Jamaica ginger is not stated. In the meantime, the seven dozen bottles of ginger, seized by the policemen, rest securely in the office of the clerk of the Recorder's court. Mr. Cottle says that at the trial he will be able fully to prove his innocence.

INCREASE WEIGHT QUICKLY

Simple Way for the Thin and Pale to be Plump and Rosy.

Samose can hardly be termed a medicine, it is in reality a flesh-forming food. Taken before or after meals, it mingles with the food you eat, enables it to assimilate and readily digest, so as to make rich blood and pleasing plumpness.

After Samose has been used a week or ten days a noticeable gain in weight is seen. The sallow complexion will become rosy, the sunken cheeks will have a ruddy glow, the eyes will be bright, the breath sweet and the step elastic.

J. Hicks Bunting Drug Co.'s customers have told them of the remarkable results following the use of Samose, the great flesh-forming food, and they are so thoroughly convinced of its reliability that they are selling it under their personal guarantee to refund the money if it does not do all that is claimed for it. You who are thin and in poor health cannot afford to let another day pass without getting a 50c box of Samose on those terms.

LOCAL DOTS.

—A building permit was issued yesterday to E. R. Clarke for the erection of a two-story frame building on 15th street, between Market and Princess. It will contain seven rooms, and its estimated cost is $2,500.

—A new telephone directory has been issued, corrected to May 1st, and shows quite an increase in the number of 'phones. It is being delivered to all subscribers in the city, at Southport and Wrightsville. There are several new features, one of which is a complete directory of all subscribers, separate from the city, and all beach 'phones are listed by number, which must be given in calling.

—Salisbury Post: "Mr. T. D. Meares, of Wilmington, becomes editor of the Carolina Pythian and the paper is moved from Charlotte to Clayton, where it will be published from the orphanage which the Pythians have established at that town. Mr. Meares is well qualified for this work and his long connection with the Pythians will serve him well in editing a paper devoted to the interest of the order."

PRESBYTERIAL MEETS TONIGHT

The Session at Whiteville Continues Through Friday—Programme

A number of delegates will leave Wilmington today for Whiteville to attend the 25th annual meeting of the Presbyterial, an organization of the missionary societies of the Wilmington Presbytery, which opens tonight with anniversary exercises, conducted by Mrs. Andrew J. Howell, of this city. The meeting will close Friday night with an address by Rev. C. N. Caldwell, a missionary from China.

Among the Wilmington delegates who will attend are Rev. Dr. J. M. Wells, pastor of the First Presbyterian church; Dr. and Mrs. George C. Worth, Mrs. A. D. McClure, Mrs. W. M. Cumming, Mrs. R. W. Hicks, Mrs. Andrew J. Howell, Mrs. W. M. Shaw, Miss Ellen Bellamy, Mrs. J. C. Stewart, Mrs. J. S. Crowley, Mrs. L. D. Latta, Mrs. J. M. Southerland, Mrs. W. T. Bannerman, Miss Elizabeth Thames, Miss Kate Cumming, Miss Hatch and Mrs. L. W. Curtis, and Mrs. Jackson Johnson, of Winnabow.

Thursday morning the Presbyterial will meet at 9:45 o'clock with devotional exercises, conducted by Rev. W. W. Morton, pastor of the Whiteville Presbyterian church, after which there will be the roll call and addresses of welcome. After the reading of reports from the different officers and committees there will be an address by Dr. George C. Worth, who is soon to sail for China. In the afternoon there will be a memorial service following which there will be other reports. At night Rev. Dr. J. M. Wells, of this city, will preach.

Friday morning there will be addresses on the various features of the work of the Presbyterial. The afternoon will be devoted to the work of the young people. At the night service Rev. C. N. Caldwell will preach.

The people of Whiteville are making extensive preparations for the entertainment of the meeting of the Presbyterial, and a large attendance is expected. The aim of the organization for the year 1913 is 20 per cent increase in gifts and 10 per cent increase in membership. This aim will be brought out prominently in the discussions at the meeting this week, and will doubtless result in enlarged interest in missionary work.

POLICE CONTINUE CRUSADE.

S. D. Bryant and J. B. Neely Arrested for Selling Malt Liquors.

That Wilmington is soon to be in the truest sense of that word a "dry" town is evident from the vigilant crusade that Chief of Police Williams is waging against sellers of "No Tax" and other like concoctions. Early yesterday morning J. B. Neely, who conducts a business at Front and Orange streets, was arrested on the charge of selling malt liquors. About the same time this arrest was made S. D. Bryant, who runs a store at Eighth and Harnett, was also arrested on the same charge. They were both before the Recorder yesterday, and their cases were continued by consent until Thursday. They were required to give bond in the sum of $200 each.

Visitors Here Yesterday

Mr. A. H. Jewell, of Lexington, Ky., president of the Kentucky Horse & Mule Co., of Wilmington, spent yesterday in the city looking over the business here. He found everything in first-class shape, and is well pleased with the large number of sales made here this year. He was accompanied by Messrs. S. P. Harveston and Sam Riley, of Lexington, Ky., and Mr. Jake Patterson, of Atlanta, Ga. These gentlemen are making a tour of the Southern States, looking after their various business enterprises located in Southern towns. This was Mr. Harveston's first trip to Wilmington, and he was particularly well pleased with its many advantages, and expressed himself as desirous of locating here.

BANKING AND CURRENCY

President Wilson Confers With McAdoo and Others

Washington, June 17.—President Wilson had a three-hour conference tonight with Secretary McAdoo, of the Treasury Department, and Chairmen Owen and Glass, of the Senate and House committees, respectively, on banking and currency. The conference which adjourned shortly before midnight is understood to have been the last before the administration currency bill is formally launched in both houses.

Representative Glass expressed doubt in the conference as to whether the bill would be ready by Friday as expected. It may be held over until the beginning of next week. No date has been fixed for the reading of the President's message to Congress. The President will consult Senator Kern and Representative Underwood, the majority leaders of both houses tomorrow, as to the most convenient time for the reading of the document. Tonight's conference concerned changes in some of the details of the bill, and it was said no variations were made in the essential ideas.

ONLY FAIR METHODS USED

Says Witness in Anti-trust Hearing Against International Harvester

Chicago, June 17.—Testifying for the defense in the anti-trust hearing against the International Harvester Company today, Floyd R. Todd, a director of the Deere Company of Moline, Ill., said that his company did a business of $27,000,000 a year and that the defendant used only fair competitive methods. He thought the defendant did 40 per cent of the farm implement business of the country. On cross-examination it was brought out that the Deere Company's principal product is plows, which the International does not manufacture.

Rate experts believe that the recent decisions of the Supreme Court on rate questions, mark the beginning of a fight by the railroads against low rates.

Wrightsville Beach

Mr. and Mrs. Burke H. Bridgers are now occupying their cottage near Station Five.

Mr. Ned Grady, of Fayetteville, arrived yesterday to spend the Summer at the beach.

Miss Sue Prince, of Wilmington, is spending a few days at Mrs. John Watters' cottage.

Mr. and Mrs. Fred Patterson, of Chapel Hill, are visiting friends and relatives at the beach.

Mr. Geo. W. Kidder and family are occupying Mr. A. Solomon's cottage near Station One for the Summer.

Mr. and Mrs. Hunter G. Smith and children, of Fayetteville, were in the city yesterday on their way to Wrightsville Sound, where they have taken a home for the Summer.

Mayor Thomas H. Wright, of Wrightsville Beach, left last week for Baltimore, to attend a house party that is being given in one of the suburbs of that city.

Messrs. S. T. Reid, W. C. Carrington and James Cleveland went out on a fishing trip yesterday in Capt. Wells' boat, Virgie May. They had splendid luck, getting 399 fish.

Among the arrivals at the Seashore Hotel yesterday were Col. W. B. Fort, Pikeville; W. E. Sheene, Baltimore; Mr. and Mrs. B. L. Montague, Sumter; A. E. Anderson, Norfolk, Va.

Mr. Norman H. Johnson, of Richmond, Va., editor of the Merchants' Journal and Commerce, is registered at the Oceanic Hotel. He is attending the meeting of the Merchants' Association.

A souvenir dance will be given this evening at Lumina in honor of the North Carolina Merchants' Association, now in session at the Oceanic Hotel. Appropriate souvenirs will be given the ladies.

Among the arrivals yesterday at the Hanover Inn were Mr. C. C. Hargrove and family, of Lexington; Mrs. J. D. Heilig and three children, of Salisbury; Mrs. W. H. Mendenhall, and child, of Lexington.

Yesterday's Charlotte Observer: "Mr. and Mrs. R. L. Poston, of Statesville, spent yesterday in the city, en route to Wrightsville, where Mr. Poston will attend the annual meeting of the North Carolina Merchants' Association."

The Tidewater Power Company has had men at work for several days making repairs to the trestles over Banks Channel and Wrightsville Sound. New supports are being placed so that the trestles may be perfectly safe at all times.

Mr. and Mrs. Joseph Strange, and daughter, Miss Kate Strange, who have been spending several weeks with Mr. and Mrs. R. H. Northrop, will return to their home at Orange, N. J., Saturday. They will leave via the Clyde liner Cherokee.

Among the arrivals at the Oceanic Hotel yesterday were Mr. S. T. Huchins, Lexington, Ky.; Jacob W. Patterson, Atlanta, Ga.; W. C. Binford, Richmond, Va.; S. T. Ryby, Lexington, Ky.; Frank M. Davis, Richmond; Mrs. S. W. Summers, Salisbury.

Dr. and Mrs. C. F. Strosnider, of Mt. Olive, are spending a few days at the Oceanic Hotel. Dr. Strosnider is pleasantly remembered here, having been formerly an interne at the James Walker Memorial Hospital. He was later connected with the hookworm commission, but is now practicing medicine at Mt. Olive.

The following are among those registered at the Oceanic Hotel who are attending the meeting of the Merchants' Association: W. E. Green, Oxford; Mr. and Mrs. R. L. Poston, B. F. Rourk, W. H. Morrison, Statesville; J. E. Davis, Concord; E. L. Austin, Greensboro; C. V. Voils, Mooresville; James E. Rector, Asheville.

The following party from Charlotte arrived Monday night to attend the meeting of the Merchants' Association: Mr. Joe Garibaldi and two sons, Messrs. W. M. Matthews, W. H. Coxe, James T. Porter, John M. Porter, J. A. Yarborough, H. C. Long, A. B. Justice, C. M. Carson, Mr. and Mrs. J. N. McCausland, Mr. and Mrs. E. W. Berryhill, Mr. and Mrs. G. G. Scott.

The Mystic Shriners who meet at Wrightsville on the 25th, have reserved the second floor of two wings of the Oceanic Hotel for the use of delegates to the convention. Among the attractions of the gathering will be an entertainment for the members which will be given under a mammoth canvas tent. This promises to furnish many thrills for those who have the privilege of attending.

The officials of the Tidewater Power Co., have taken a determined stand against all forms of improper dancing at Lumina, and Saturday night when several couples were engaged in some of the newer styles of dancing they were notified that they must stop. The public will appreciate this attitude of the officials, and will be glad to learn that the beach is to be kept free from the degrading forms of the modern dance.

NEWS NOTES OF DUNN.

Death of Old and Influential Citizen. Baptists to Build.

(Special Star Correspondence.)

Dunn, N. C., June 17.—In the death of Mr. Nathan B. Hood on Sunday, Dunn lost one of her oldest and most influential citizens. Mr. Hood was 69 years old and has been a resident of Dunn for 24 years. He came here among the first settlers and has been intimately identified with all of the spiritual and material progress of the community since that time. He was the founder and the head of the Disciple church and his influence for good in this community will live for generations to come. He leaves a wife, who is in feeble health, to mourn his loss. Their union was never blessed with any children. The interment took place Monday afternoon in Greenwood cemetery.

Rev. O. P. Speigle, of Alabama, will begin a series of meetings at the Disciple church tonight. He will be assisted in these meetings by his wife, who has charge of the music. Mr. Speigle has held a meeting here before and is well known to the Dunn people.

The Baptists have torn away part of their old church building, and ground has been broken for the erection of a handsome church building, to be built of brick and stone, on the site where the old church stood. The building they intend building will be among the finest in this part of the State.

Mr. W. B. Warren is now adding the third story to a handsome brick store that he is building on the corner of Main and Wilson streets. The first floor is to be occupied as a drug store the second to be used for offices, and the third will be used by the secret orders of the town as a permanent hall for their meetings.

The town continues on a building boom. Several handsome dwellings will be erected here this Winter. And a great many smaller homes are being built and others are contemplated in the near future.

Mr. H. H. Bizzell, Mr. J. A. Culbreth and wife left yesterday for Ithaca, N. Y., to spend some time with Prof. J. A. Bizzell, a son of Mr. H. N. Bizzell, who holds a responsible position with the agricultural department of the State of New York.

DON'T PULL OUT YOUR GREY HAIR

Keep It and Restore It to Its Natural Color

IT'S SO EASY IF YOU USE HAY'S HAIR HEALTH

Hay's Hair Health always brings back the natural color of youth, to grey and faded hair. Druggists everywhere say that more people are buying Hay's Hair Health than all others combined, and that they come back for it again and again as they find it really does keep their hair dark, glossy and natural colored—gives new life and growth to thin, dry hair and stops falling out.

If you have Dandruff, there's nothing that will remove it so quickly—that will keep it out so effectively, as Hay's Hair Health. It is not a dye and it's perfectly harmless to use. Will not soil your skin or linen, and besides, no one will know you are using it. The first application will convince you that after a fair trial, you'll have no more grey hair or Dandruff.

Don't wait to think about it—act now. Start using Hay's Hair Health today. You'll never regret it. The following druggists guarantee to refund your money if you are not satisfied with Hay's Hair Health after a fair trial.

Free: Sign this adv. and take it to the following druggists and get a 50c. bottle of Hay's Hair Health and a 25c. cake of Harfina Soap for 50c.; or $1.00 bottle of Hay's Hair Health and two 25c. cakes of Harfina Soap Free, for $1.

The Perfect Baby Of The Future

A Simple Method That Has a Wonderful Influence upon The Future Infant.

Too much can not be said for a wonderful remedy, familiar to many women as Mother's Friend.

It is more eloquent in its action than all

the health rules ever laid down for the guidance of expectant mothers. It is an external application that spreads its influence upon all the cords, muscles, ligaments and tendons that nature calls into play; they expand gracefully without pain, without strain, and thus leave the mind care-free and in joyful anticipation of the greatest of all womanly ambition.

Mother's Friend must therefore be considered as directly a most important influence upon the character and disposition of the future generation. It is a conceded fact that, with nausea, pain, nervousness and dread banished, there is stored up such an abundance of healthy energy as to bring into being the highest ideals of those who fondly theorize on the rules that insure the coming of the perfect baby.

Mothers' Friend can be had at any druggist at $1.00 a bottle, and it is unquestionably one of those remedies that always has a place among the cherished few in the medicine cabinet.

Mother's Friend is prepared by the Bradfield Regulator Co., 139 Lamar Bldg., Atlanta, Ga., after the formula of a noted family doctor.

Write them for a very instructive book to expectant mothers. See that your druggist will supply you with Mother's Friend.

You will be jauntily shod —and will be stylishly, smartly shod—if you will wear a pair of our

FINAL TONE OF COTTON STEADY VIOLENT DROP IN GRAIN PIT THE STOCK MARKET INACTIVE

Excitement and Activity in the Market—Closing Prices Off From the Best—Weather Conditions Were Favorable.

New York, June 17.—The cotton market was again active and more or less excited today, with new crop positions again leading the advance and making new high ground for the movement. Closing prices were off from the best under realizing, and Southern selling with the final tone steady, at a net decline of 2 points to an advance of 9 points.

The market opened steady at a decline of 1 to 5 points. Cables were lower than due, and the weather map was considered very favorable, while there were reports in from the eastern belt indicating that the crop was making very rapid progress with the prevailing warm weather. Prices eased off to a net decline of some six to eight points right after the call, in consequence, but offerings were well taken at the decline, and the market turned very firm during the late forenoon on a renewal of bull support and active covering.

Stop orders were uncovered on a sale up and October contracts touched 12.75, with new crop positions generally selling 14 to 17 points net higher. The demand seemed to come largely from Wall Street and uptown sources, and was supposed to represent support from operators who had recently covered short cotton and were taking the long side on the advance, while old European and local longs were credited with most of the selling. After the stop orders were expected the market turned a shade easier on the favorable weekly weather report, and in the afternoon houses with foreign and Southern connections were heavy sellers of new crop months.

The close was some 8 to 10 points off from the best, on active positions. July was relatively quiet during the day, selling only 5 points net higher, and showing a net loss of 2 points at the close.

Spot cotton closed steady, 5 points up; middling uplands, 12.40; middling gulf, 12.45. Sales, none.

Cotton futures closed steady.

NEW ORLEANS COTTON MARKET

New Orleans, June 17.—Cotton displayed nervous fluctuations today, chiefly because of the profit-taking operations of the long side on every little advance. New high levels for the season were brought about but they were not well maintained, although the market responded very readily to buying orders and sentiment was more in favor of the bull side and a further advance than at any previous time this season.

THE NAVAL STORES MARKET.

New York, June 17.—Turpentine, steady. Rosin—Easy, at 4.25.

Savannah, Ga., June 17.—Turpentine, firm, 36¼ to 36½; sales, 539; receipts, 1,193; shipments, 202; stocks, 24,189.

THE DRY GOODS MARKET.

New York, June 17.—Fruit of the Loom, 4x4 bleached cottons were advanced ⅛c. a yard to 8⅝c. today. Trade continued steady, in cotton goods. Yarns were steadier, with prices somewhat firmer. Duplicate orders on dress goods, such at ehenise, bayadres, poplins and velours, are much better from the cutting trades. Raw silk markets here are very quiet. Foreign raw silk markets are firm.

Uncertain Course Followed Throughout the Day—Dullness to the Point of Stagnation—Foreign Selling.

New York, June 17.—An uncertain course was followed today by the stock market which was dull to the point of stagnation much of the time. The close found prices of many representative stocks well above yesterday's final figures, although below the highest quotations of the session. The slump of the market yesterday apparently was discouraging to foreign holders of American securities, who sold freely here. Foreign selling was a large factor in the decline at the opening and London disposed of about 20,000 shares here on balance.

In spite of pressure from abroad and renewed selling by traders who sought to extend declines, the market quickly rallied from the opening break, rising with an ease which suggested that the short interest had been largely extended. The decline induced no further liquidation and bear traders, finding the market moving them, covered. Reading was in especially good demand, and displayed most strength of the leaders. The Harriman shares were helped by reports that a dissolution plan had been worked out to the satisfaction of all interested.

Interborough-Metropolitan, pfd., which has developed marked strength recently, rose nearly four points, to the accompaniment of gossip concerning prospects of a dividend payment.

One reason ascribed for the increasing dullness of the market was the disposition of traders to hold off until President Wilson's message regarding currency is read, and some definite word is received regarding the attitude of the courts toward the latest plans for segregation of the Harriman roads.

Bonds were firm, total sales, par value, $1,441,000.

STATE MERCHANTS AT WRIGHTSVILLE

(Concluded from Page One.)

State association, and another clause that he was to speak not less than one hour and 72 minutes. The speaker was elected president, and, therefore, he would proceed to speak the required length of time. Many yawns were heard in different parts of the room as he opened the grip and took therefrom a roll of paper purporting to be his address of one hour and 72 minutes in length. He stated that he had always made it a rule never to be interrupted when speaking and on this occasion had fortified himself. Digging down in the grip again he brought out an ugly looking revolver which he gently placed on the table before him. Next he brought forth one-half pint of the pure stuff, which also was laid upon the table. "Now," said Mr. Munson,, "I propose to see that I am not interrupted. The person who interrupts me will be shot—take your choice, the pistol or the stuff in the bottle," and his auditors were not slow to see the point. After continuing for some minutes in the same humorous vein, Mr. Munson grew serious and told the visitors of the many attractions of the city and beach, and in conclusion expressed the hope that every moment of their stay would be filled with pleasure without a single incident to mar it and after they have completed their work here be safely transported to their respective homes.

This was the last of the several addresses of welcome.

The Response.

The response to the addresses of welcome was made by James E. Rector, Esq., of Asheville, who is secretary and attorney for the Asheville association and is a member of the State Legislature from Buncombe county. Mr. Rector said that the custom of having welcoming addresses and response seems to be well established, but never before had he known the welcome to be so generous and of such magnitude as to require four speeches and reasoned that if the largeness of the welcome thus given required four splendid speakers to deliver it certainly it would require not less than one hour from each merchant in attendance to make a fitting response. He said that the members would gladly take advantage of the many features offered for pleasure and recreation, but that not all the time would thus be occupied as there are many matters of vital importance not only to the merchants, but all the people of the State to be considered.

The response to the addresses of welcome is usually given to some one who desires to get off some of his ideas, said the speaker, and stated further that he had a number of suggestions to make that he thought would be of interest to the association and of benefit to the members if adopted.

First, he declared, that a law is needed against indiscriminate advertising, so that the honest man will have an equal show with the dishonest man, mentioning the extravagant statements that are put into some of the advertisements.

Second, the law should be amended as to unfair competition. The merchant is entitled to realize a reasonable profit from his goods. It is unfair for some trust to come into a territory and in order to stifle competition run the price down, making up the difference by putting up the price in another community where the competition is not so keen. A trust of this character, he said, should be denied the right to do business in the State.

Third, the free deals and premiums should be put under the ban by the merchants. They should say to the manufacturers that they do not want these premiums given, and unless it is cut out that they will buy their goods from manufacturers that do not offer these inducements. He expressed the hope that the association would take a firm stand against premiums and free deals.

Fourth, the trading stamp should be tabooed by the merchants. It is no good, but a constant source of annoyance as well as an expense.

Fifth, credit is too cheap. He has been preaching this to the Asheville association for a long time. There is no need to strengthen the laws to aid the merchants in collections. Butt rather the merchants should encourage the large employers of labor to have more frequent pay days. Some have two pay days in each month. In this State, take the men employed by the Southern Railway, for instance, they are paid once a month, on the 20th, and receive at this time the wages they earned the previous month. The result is that the merchants are asked to extend a line of credit. This is necessary unless the railroad commissary is patronized, they are charged big prices. Other States have a law compelling these corporations, these large employers of labor, to have two pay days each month and North Carolina ought to have such a law, he said. A bill providing this was introduced in the last Legislature and by hard work was gotten through the House, but in the Senate it was killed. Mr. Rector expressed the hope that by the time the next session of the Legislature is held that the merchants of the State will have gotten behind the measure, or one similar so strongly as to assure its passage in the Senate as well as in the House. One of the principal causes of credit will then be removed, he said. We will then relieve if not entirely remedy the situation, he said.

Sixth, the discrimination against North Carolina in the matter of freight rates and the speaker was glad that the association was going to be given the opportunity of hearing this matter discussed by one eminently qualified to speak on it from the standpoint of an expert who has studied the question thoroughly.

Seventh, the unjust and arbitrary insurance rates which we have to pay. He said that he understood that in some places the rate has been raised by the insurance companies where there has been a lessening of the risk because there has been no organized effort to prevent it. The rates are higher in this State, he said, than in other States; 50 per cent. than in some other States. The insurance companies, he said, ought to be put under the control of the Corporation Commission.

He said that he hoped the convention would give the suggestions consideration, and in conclusion he again thanked the speakers for the very warm welcome and assured them that the visitors would take the opportunity to enjoy the natural advantages and the unbounded hospitality of the "City by the Sea."

Committee on Credentials.

President Garibaldi appointed as the committee on credentials, which will report this morning, the following: R. L. Poston, Statesville; J. S. Davis, Concord; Walter B. Hunter, Raleigh.

President Garibaldi thanked the speakers for their warm words of welcome and in reply to something that had been said with reference to dishonest merchants that no one had ever seen a dishonest merchant that the Great King of Kings put out of business, but the public did. He invited all the merchants of Wilmington and the public generally to attend the sessions of the convention.

Announcement was made by Mr. Munson that the weather permitting a photographer would be on hand this morning at 9:30 o'clock to take a photograph of the members of the convention. He also announced that the first fishing party would go out at 6:30 o'clock this morning, accommodations being provided for 25.

THE FOOD AND DRUGS ACT

Radical and Far-reaching Extension of Enactment Made Yesterday

Washington, June 17.—Probably the most radical and far-reaching extension of the Food and Drugs act since its enactment was made today when Secretaries Houston, McAdoo and Redfield, charged with enforcing this statute, ruled that meat and meat products in inter-State or foreign commerce which hitherto have been exempted from the provisions of the pure food law, may be seized if misbranded or adulterated. Beginning at once, manufacturers of meat foods will be required to comply strictly with the food and drugs act as well as with the meat inspection law.

The action was taken on the strength of an opinion by Attorney General McReynolds. The three secretaries revoked a regulation adopted in October, 1906, only four months after the passage of the pure food law, which had prevented the Department of Agriculture, according to a statement today by Secretary Houston, "from prosecution against manufacturers of meat foods under the pure food law, or ordering seizures or prosecution for misbranding or adulteration of domestic meats."

Secretary Houston said he could not understand why meat and meat products were not food in the sense of the Food and Drug act, or why his department could not seize bad, adulterated or misbranded meat, once it had entered inter-State commerce. Therefore, he had sought the advice of the attorney general.

"Under the meat inspection law," the secretary said, "most inspectors have absolutely no power to seize meat or meat food products that have become bad, or have been adulterated after they have left a Federally inspected establishment. The only remedy possible under the meat act is to proceed criminally against anyone selling bad meat, but even in this event bad meat cannot be seized, nor its sale prevented."

With the regulation of 1906 revoked, the department can seize and prevent the sale of bad and adulterated meat, once it has crossed the State line and remains in inter-State commerce. In case spoiled meat again reaches a Federally inspected establishment it comes, of course, under the jurisdiction of the meat inspection law and can be destroyed as heretofore done. Under the new decision the government can control meat foods from th hoof to the retailer, subject only to the limitations of the power of the Federal government in inter-State commerce.

The department is empowered to require all manufactured meat products to conform fully to its labelling regulation, and can enforce its penalties, productions and seizures for misbranding and adulteration.

DISSOLUTION DECREE.

Attorney General Will Investigate Fully Before Making Decision.

Washington, June 17.—Attorney General McReynolds is seeking further information before deciding whether the decree dissolving the Standard Oil trust has been violated, and whether the Federal government should proceed against those responsible.

Under instructions of the attorney general, Charles B. Morrison, the government's counsel in the case, is in Chicago attempting to develop more facts. This may take several weeks. The government's investigators found that the disintegrated parts of the great trust have quit all the unfair competitive methods originally charged. The government's inquiry now relates to the question whether the former subsidiaries of the trust are, by agreement or understanding, refraining from competing with one another, or are fixing the price of oil.

The Department of Justice, it is said, has practically no complaints from independent oil interests. With the prices of oil soaring and unfair competitive methods eliminated, it is said, they seem to be satisfied. The government is giving particular attention to the reasons for the rising prices of oil.

Kansas City, Mo., June 17.—With more than 50 witnesses ready to tell their stories of working conditions of women in Kansas City shops and factories, the Missouri wage investigation commission opened its local hearings here this morning. Representatives of the board of public welfare, the council of women's clubs and the women's trade union league were among those scheduled to appear. The hearings will be concluded by Friday.

This High Priestess of Occultism Reads Your Life from Infancy to Old Age

Many sad hearts have been gladdened, many weary lives made bright, through the advice and magnetism of this Yogi philosopher, who simply amazes men and women in all walks of life who are in trouble or suspense concerning the everyday affairs of life. One visit to this eminent clairvoyant may mean the turning point of your life.

Without asking a single question of you, or speaking one word, this noted clairvoyant will call your name in full, also full names of husband, wife or sweetheart; tells you whom and when you will marry; never fails to reunite the separated; settles lovers' quarrels, family troubles and tells how to obtain absolute success in business, law suits, divorce, marriage, love affairs, investments, speculations, mining, oil, gas, real estate and all matters of interest.

Many are taking advantage of the special low price of 50 cents this week. Why not you? Hours from 9 A. M. until 8:30 P. M.

Tackle Talk

When you get ready to fish, naturally your mind turns to where you should go to get good Tackle of the Right Kind.

We've got the good Tackle, and furthermore, if you want to "line up" on what to use—why just ask Tomz. Willie Tomz—or Willie, as he is familiarly known by the sporting fraternity, is an encyclopedia on the art of fishing—what to fish with and where to go, and when! Because he knows what he is talking about.

SPRING BUTT RODS

made especially to order for us.

PRICE $12.50 EACH

They conform in weight and size to regulations required in this season's Fishing Contest.

They are Beauties — nice, straight-grained, Genuine Lancewood and Genuine Bethabara, too —with all the nice little features that should belong to a high-class rod like these.

Deep Sea Poles, 15 to 20 ounce, $2.50 to $10.00. Reels, 200 and 300 yards. "Free Spool," $8.00 to $15.00. Reels, Deep Sea, without Free Spool feature, $2.00 to $6.00.

Hooks, Snells, Squids, everything to contribute to your pleasure in this line, to the salt, as well as the fresh water fisherman.

Don't forget to call for Willie. It's a joy for him to show, whether you buy or not!

N. Jacobi Hardware Co.

Willie's last "Drum" Fish caught weighed 43 pounds!

TO CONSUMERS

If you want White, Nutritious Flour, that will make Bread and Biscuit to please you every day and Sunday, too, ask Your Grocer for

And if he hasn't got it, Insist Upon his Getting It for you.

Your Vacation Assured

You must plan ahead if you are to take a vacation this Summer. Else when the time comes, you won't have the funds.

We invite you to start a Vacation Fund with this bank. You are at liberty to draw out your money whenever you need it.

It is high time you began to save for the vacation which is coming later in life—old age. A bank account added to from time to time will insure a happy vacation in later life when your work is over and you are ready to rest.

The sooner you begin, the quicker you'll be able to retire and the further away from helplessness. Small accounts will receive careful attention.

A New Interest Quarter Begins June 2nd.
